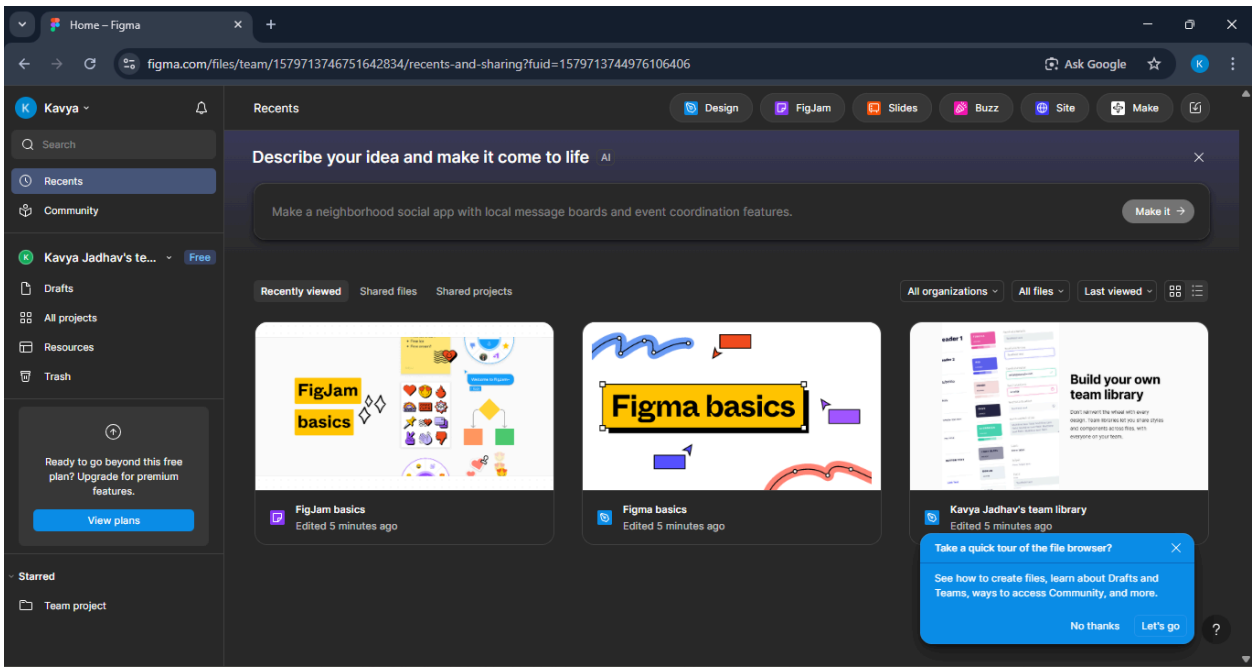
PRACTICAL 4

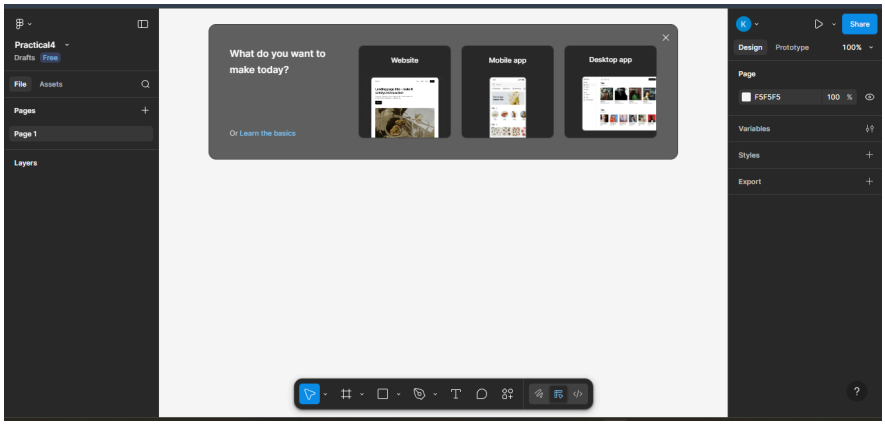
Aim : Recreate existing user-interface

1.Recreate a given UI screen for a mobile phone & a web landing page using Figma

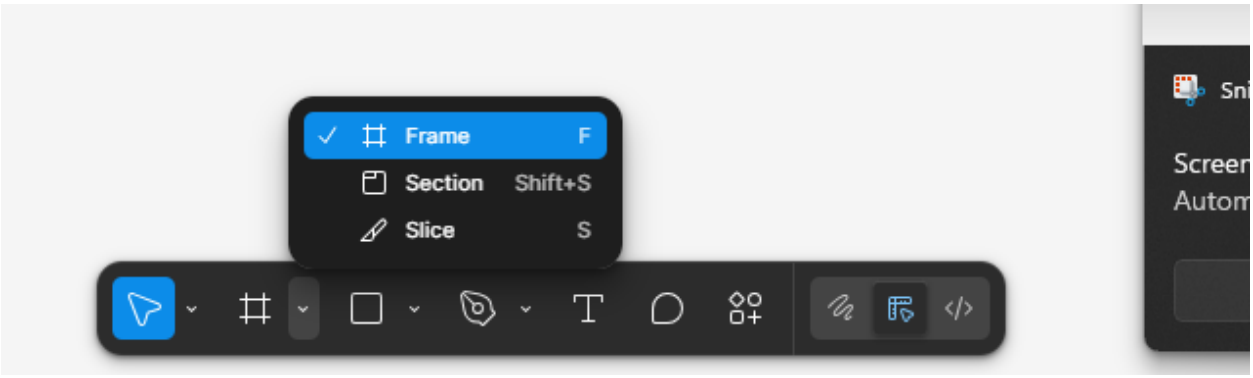
Figma



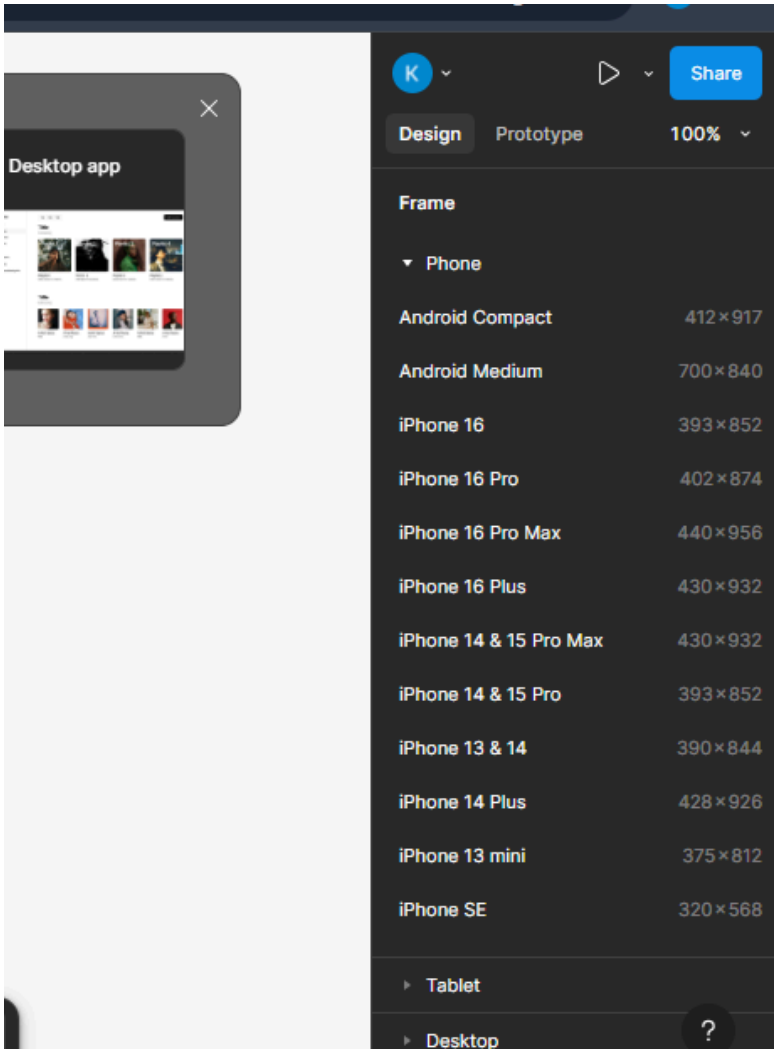
Click on Design (top meu)

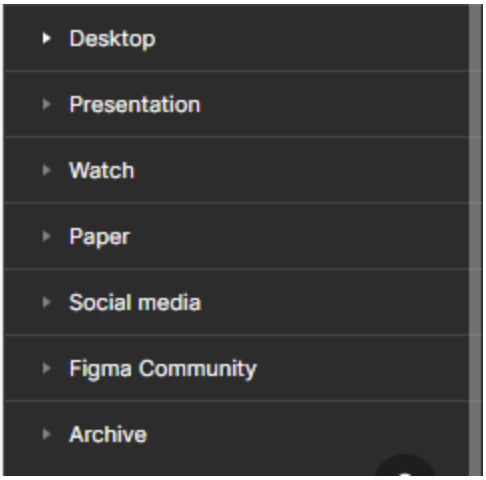


Click on Frame (bottom)

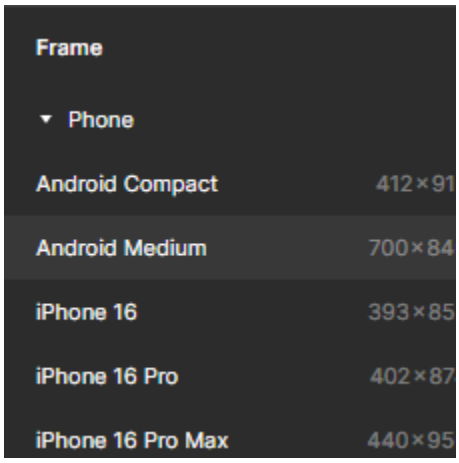


After clicking on Frame at right sidebar frames will be displayed

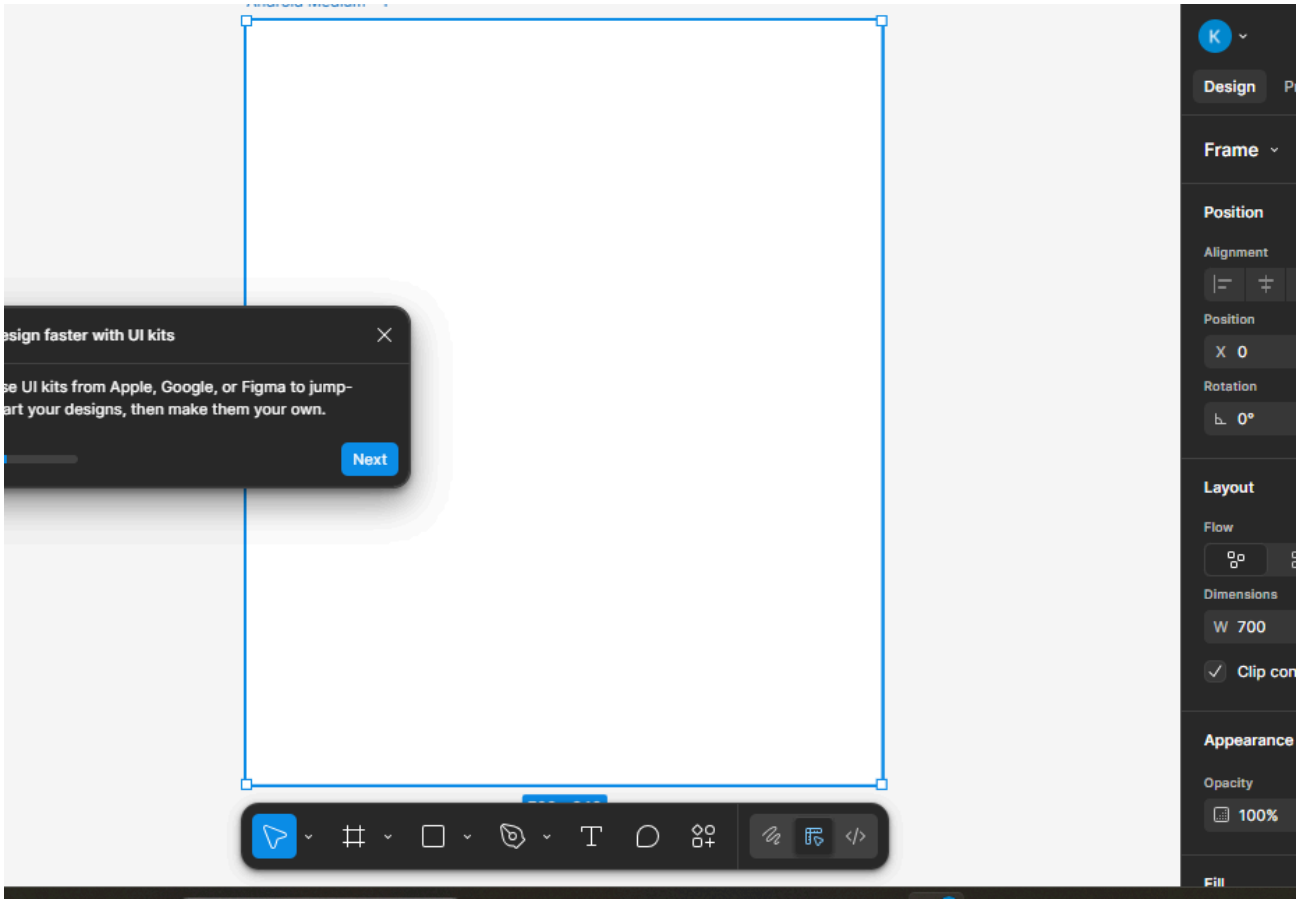




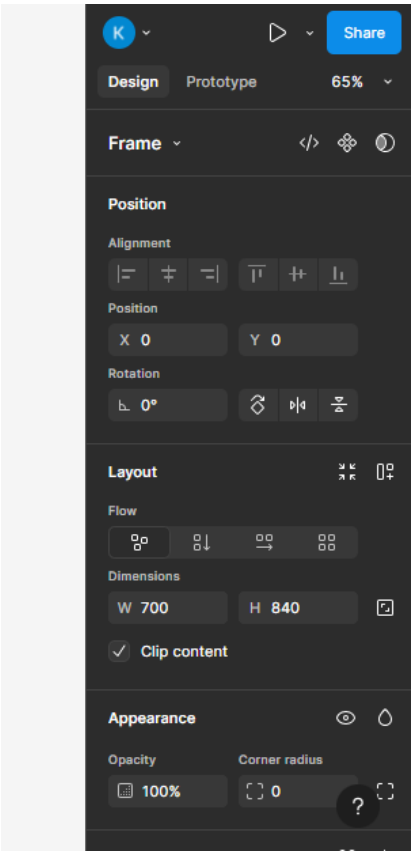
Create a container (select Android Medium)



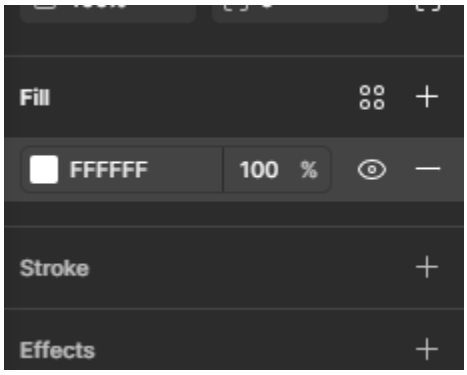
The container will be created



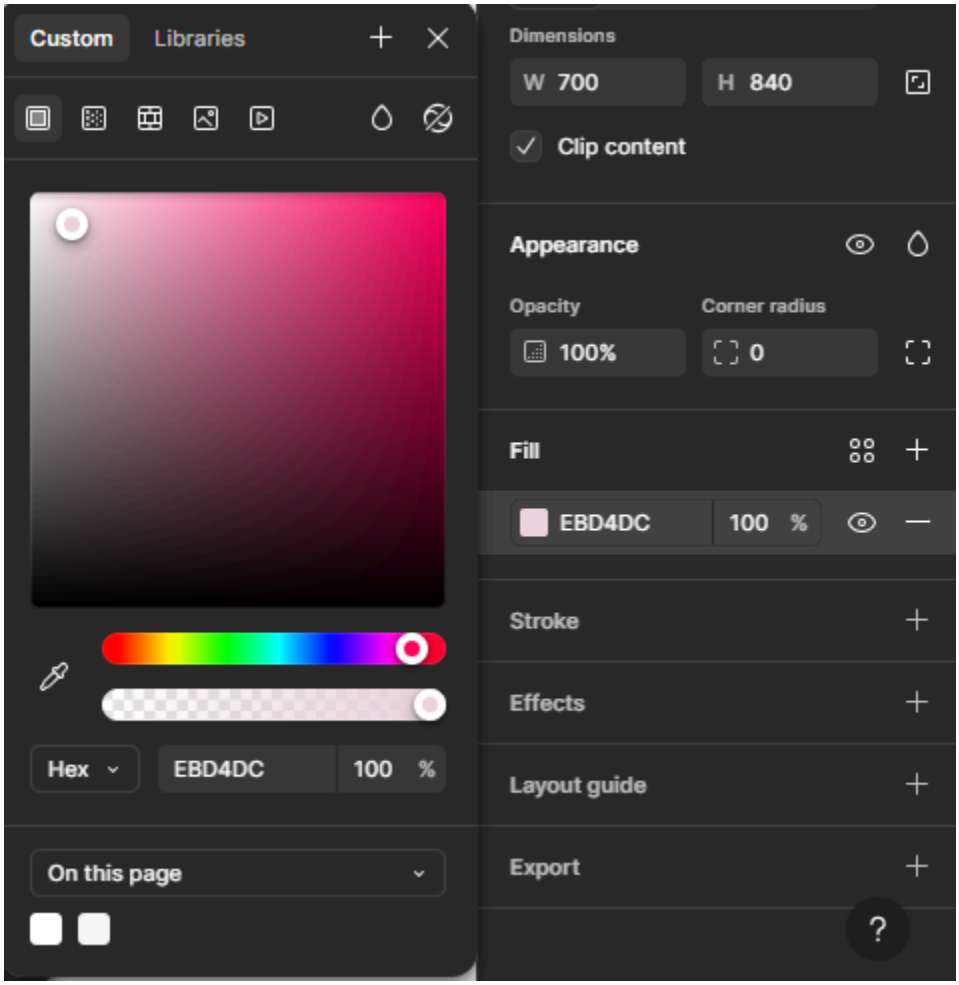
At right sidebar the properties are displayed



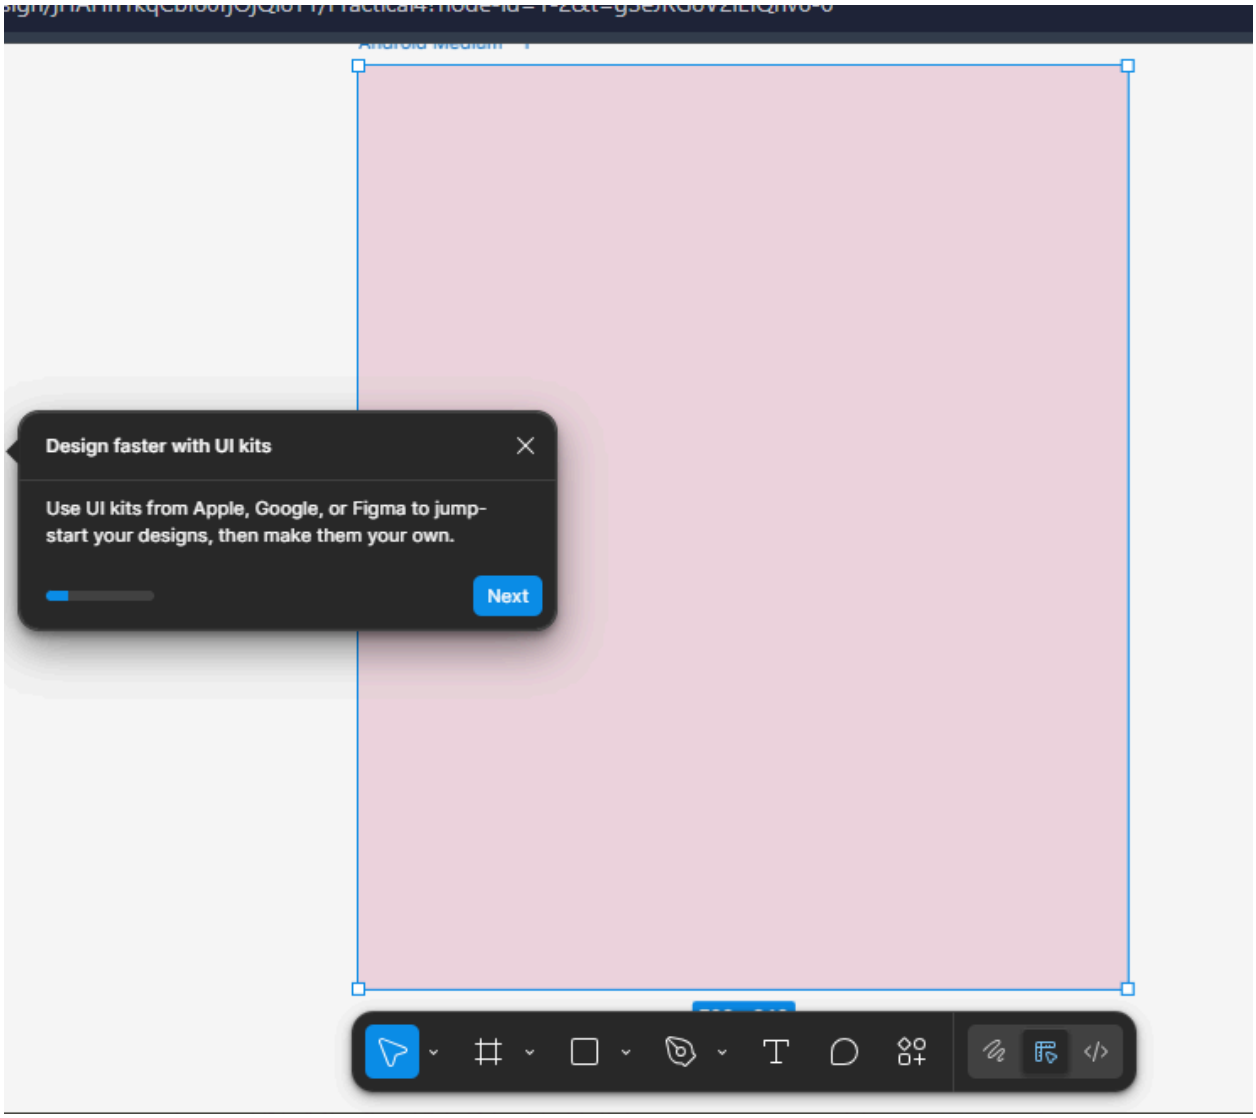
Change color



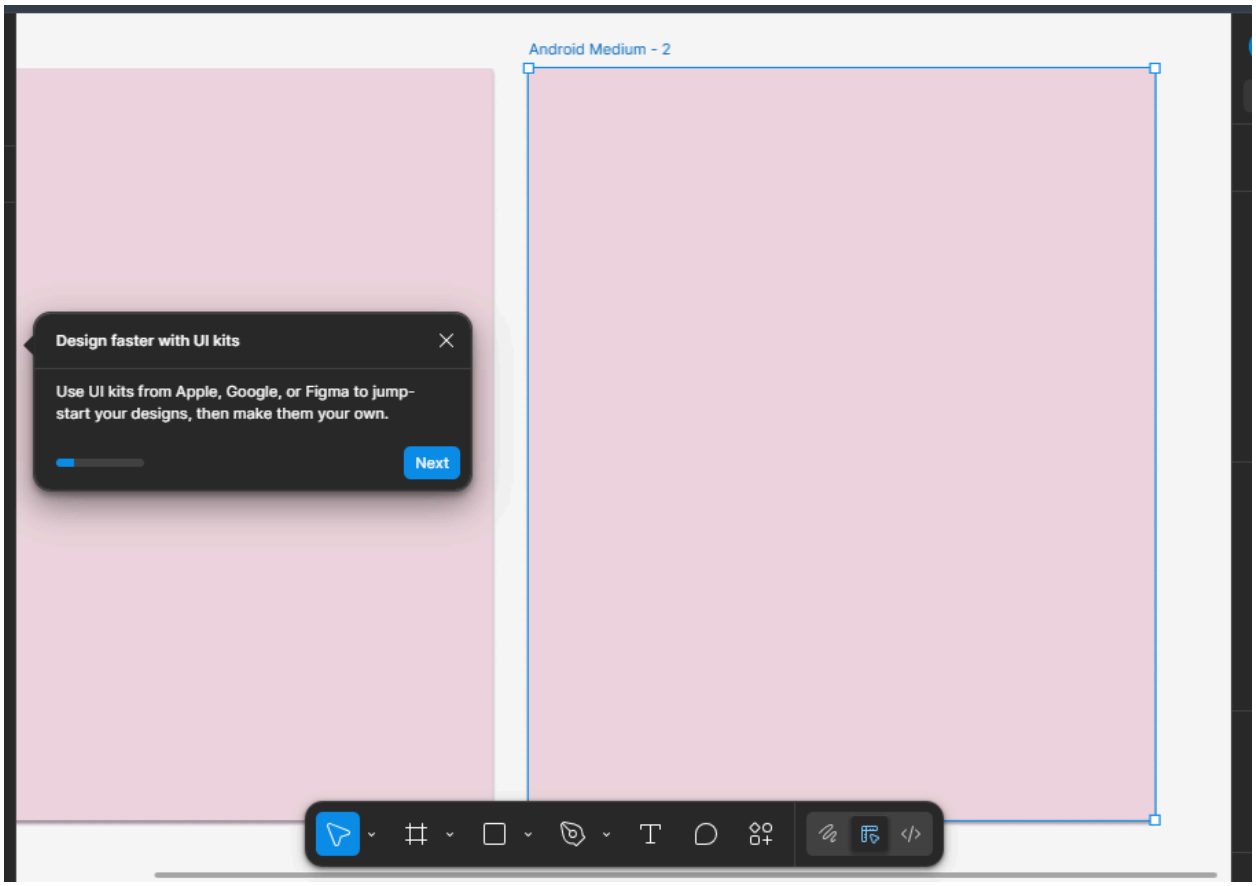
Select any color



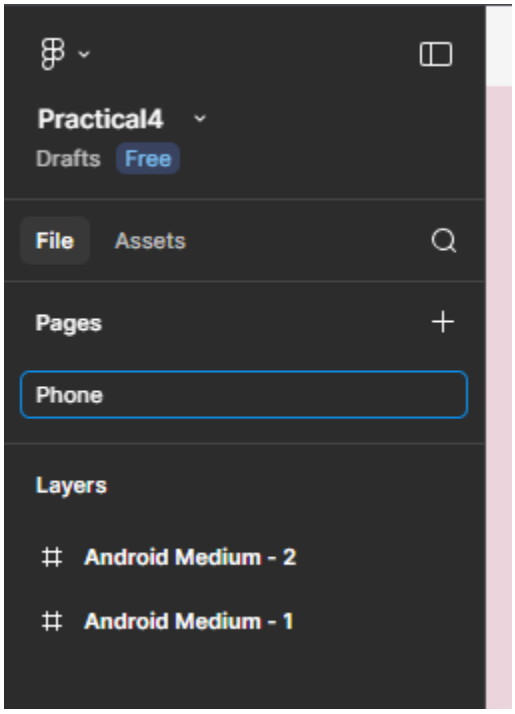
NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 8.12.25



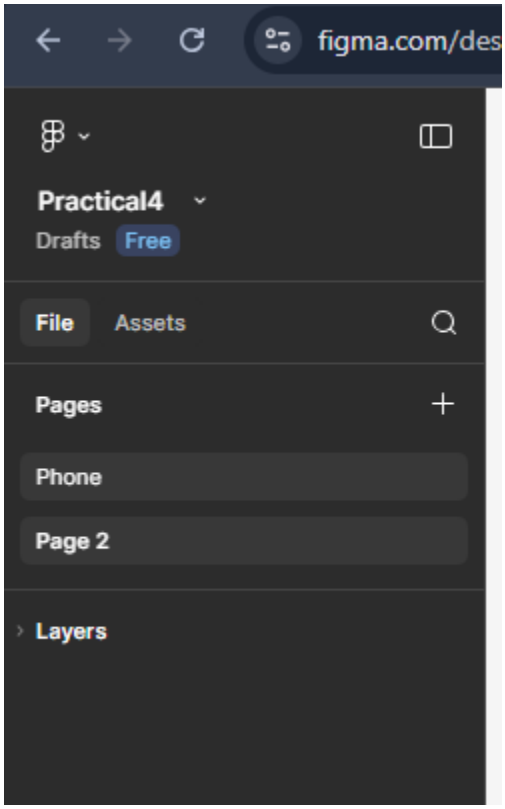
Click on container and press ctrl+c and ctrl+d this will make one more duplicate page



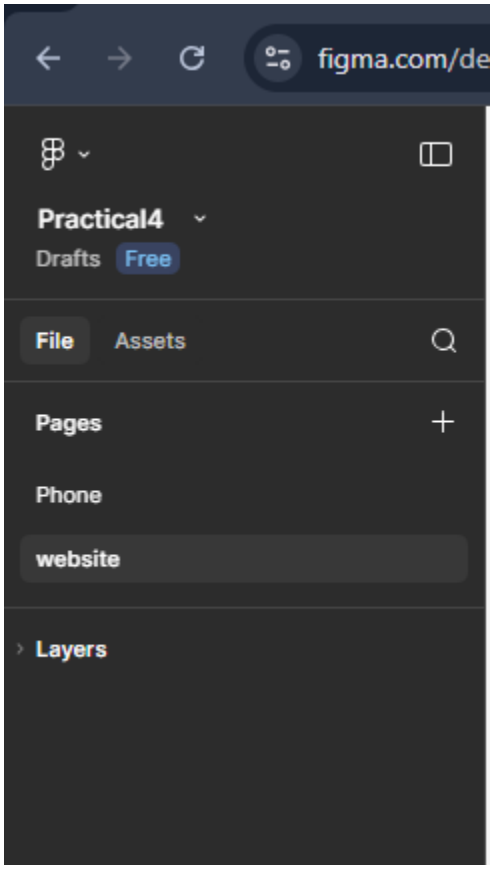
Give page name as Phone



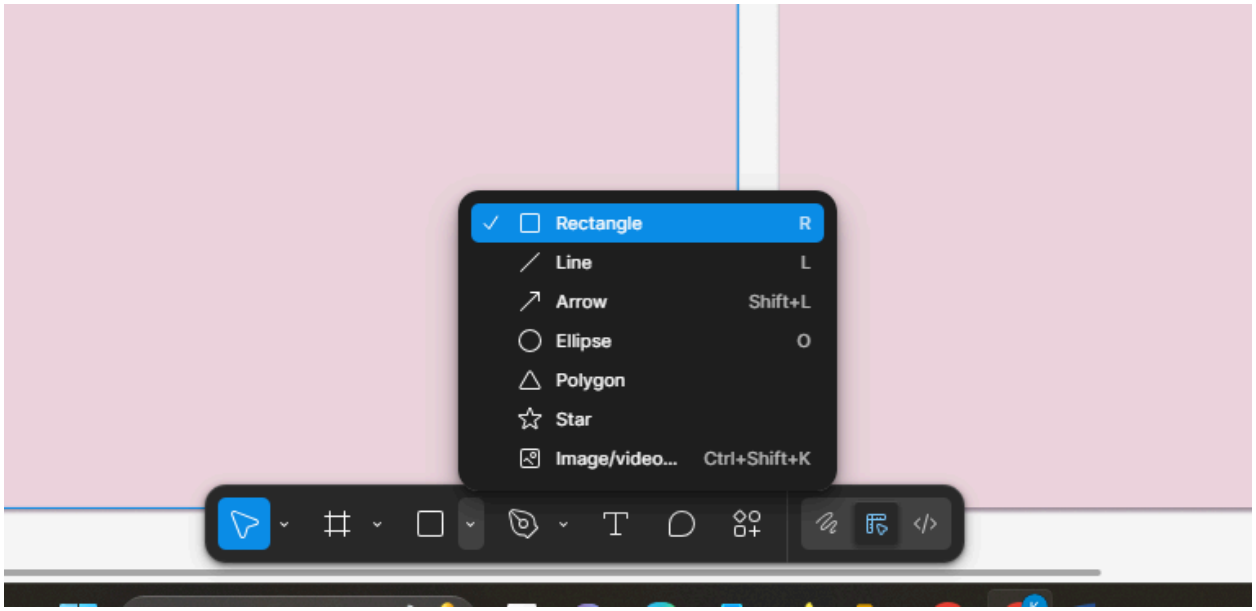
Create one more page (click on +)



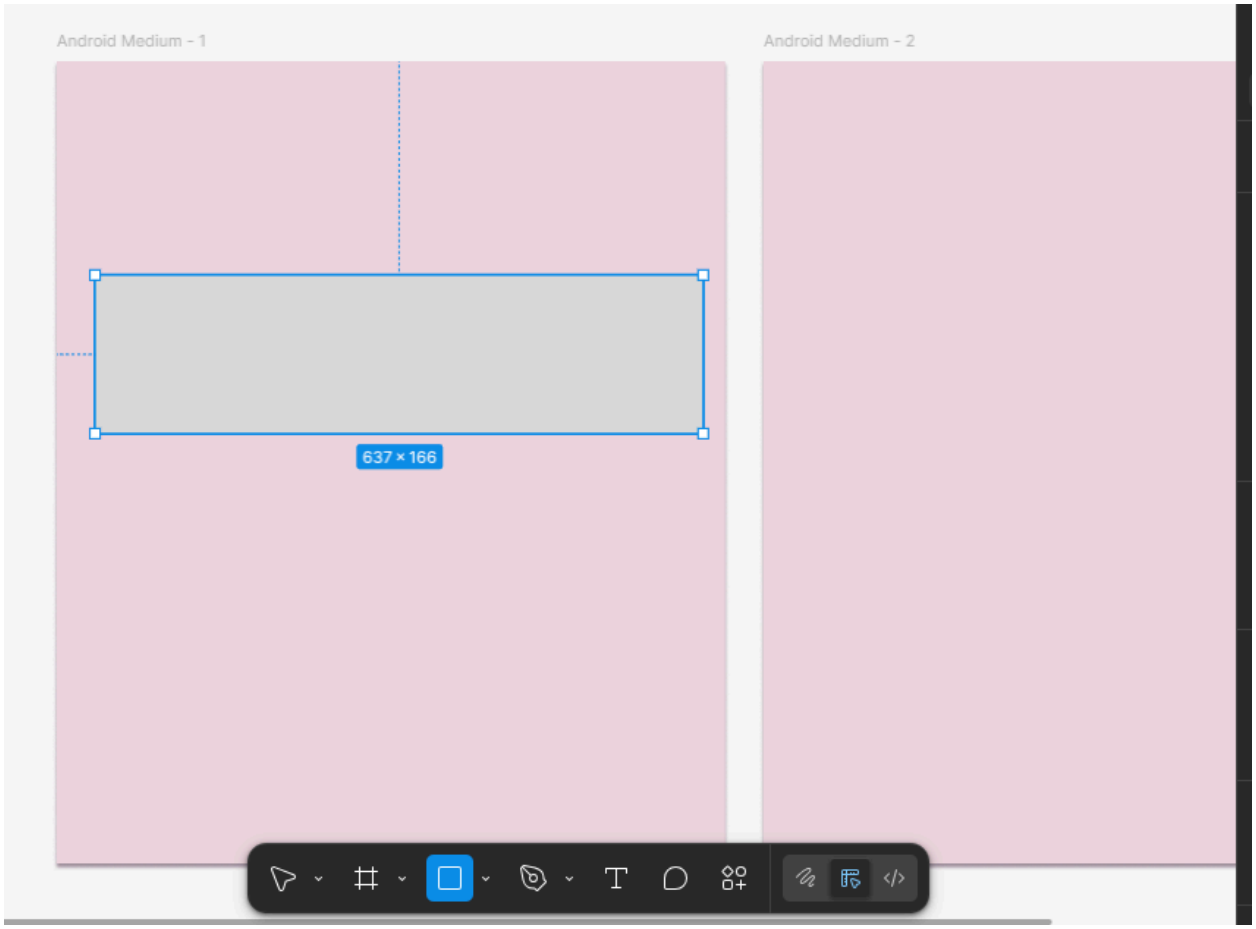
Name it as website



Pages >> Phone



Select rectangle and place it on page



On left sidebar it will show
