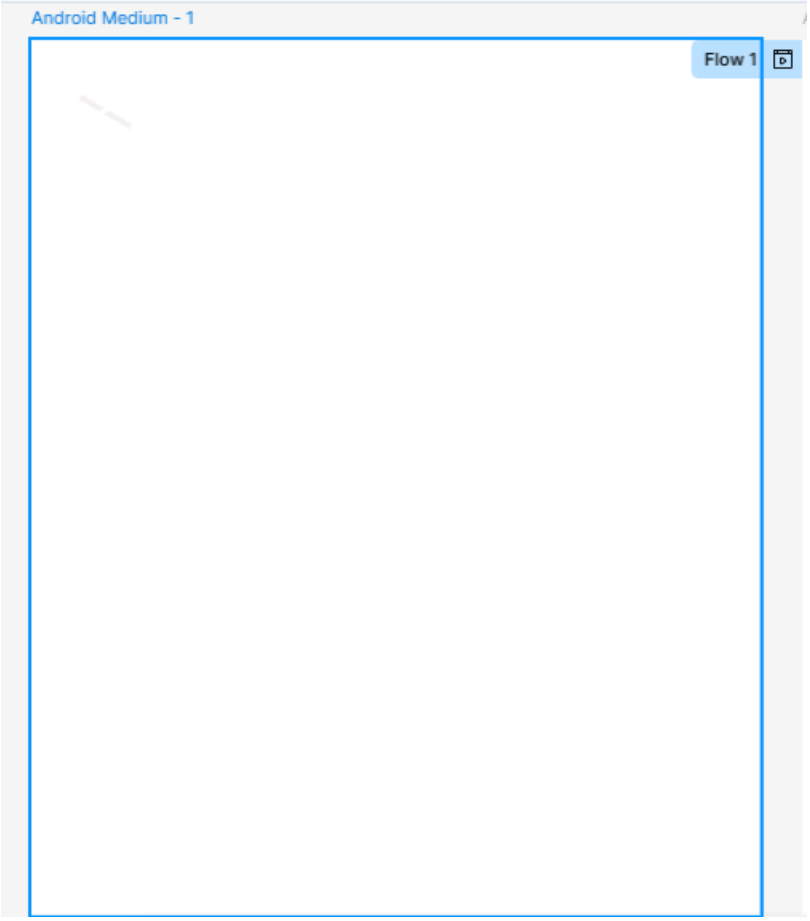
PRACTICAL 8

Aim : Navigation of Pages

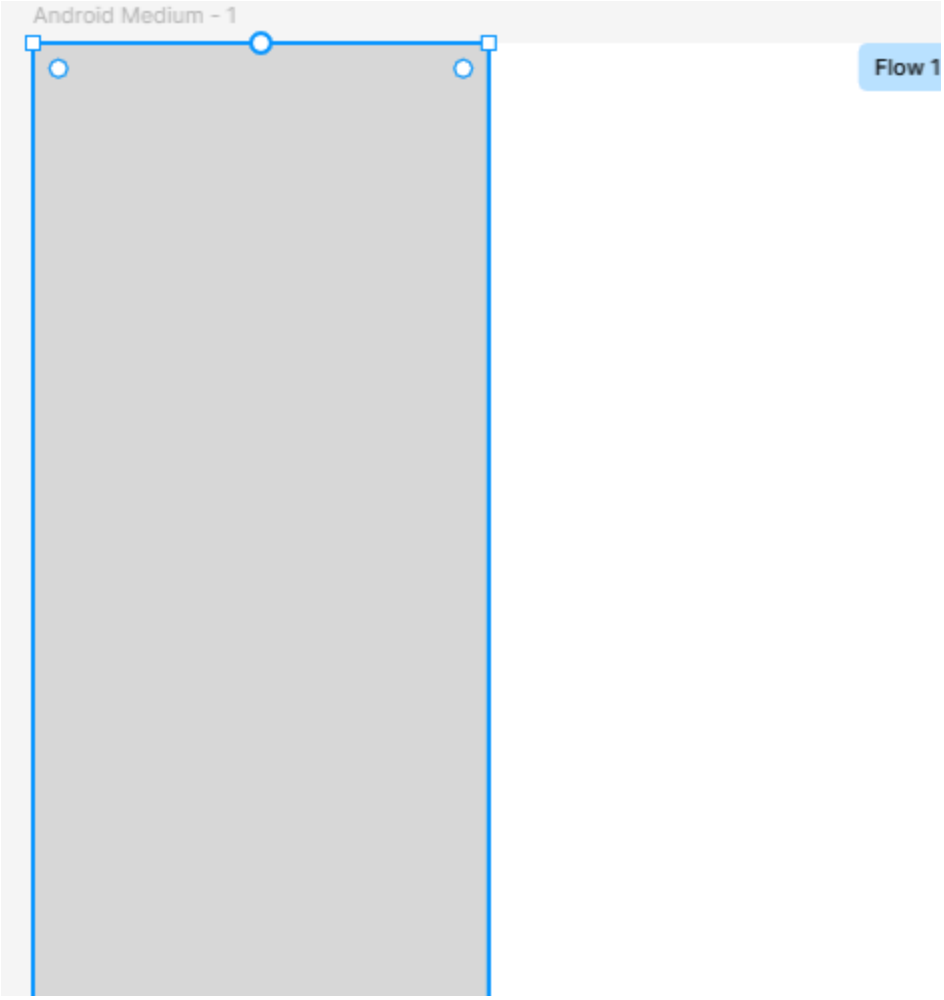
Sidebar navigation :

Take an Android Medium



NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26

Give a rectangle as a side bar

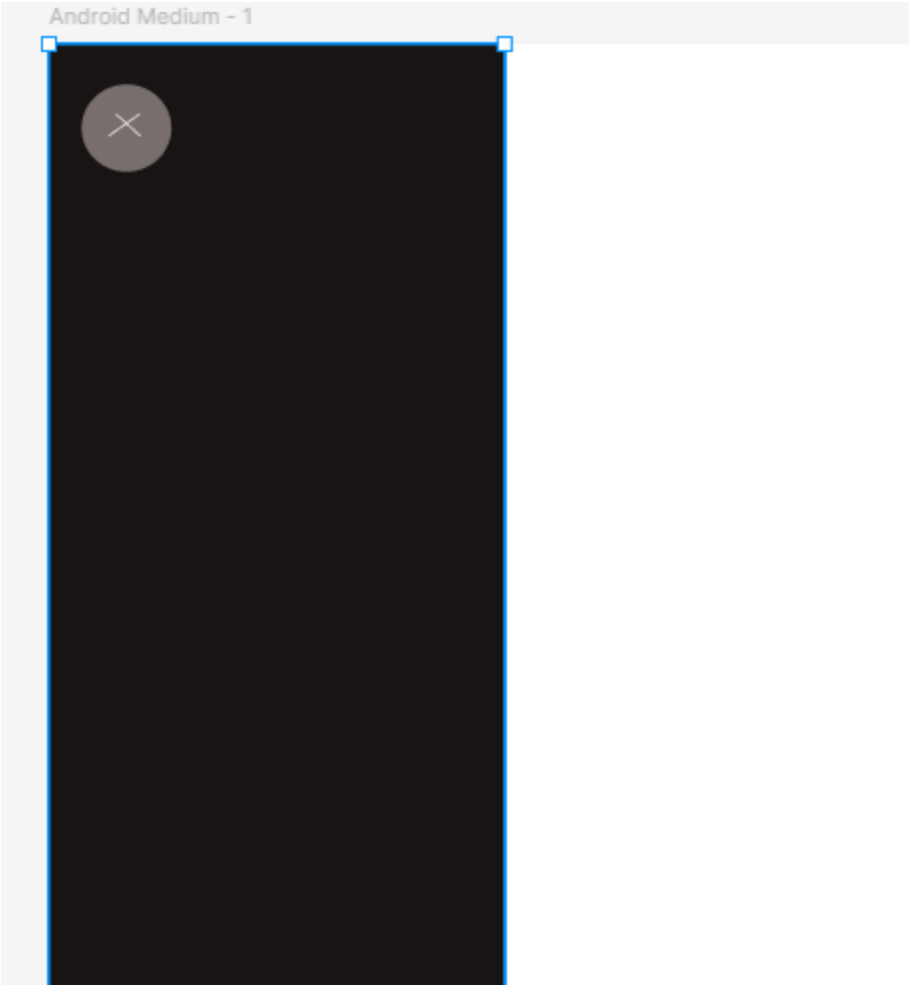


Give menu option in that rectangle

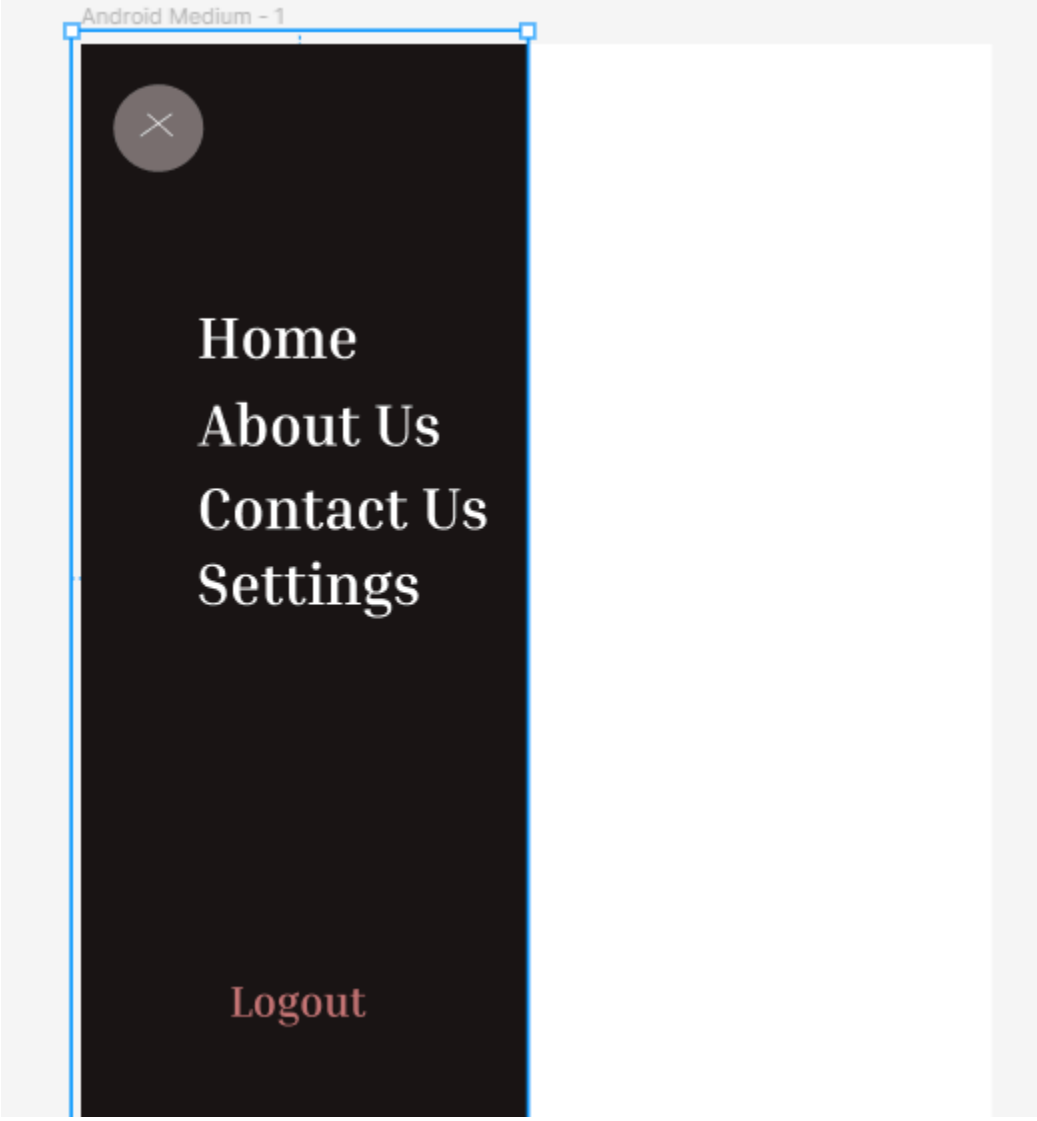
Use eclipse and line

Then use text to give menu items

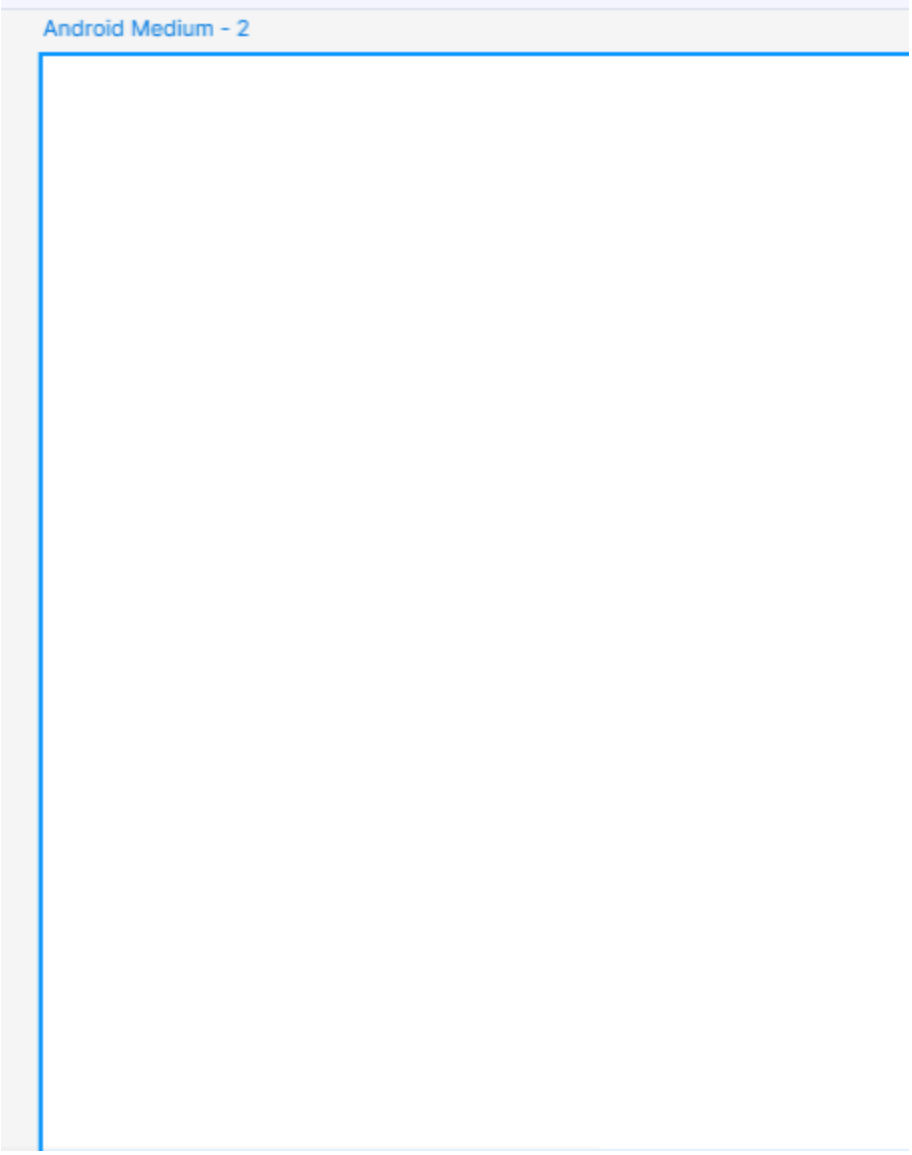
NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26



NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26



Now create another Android Medium

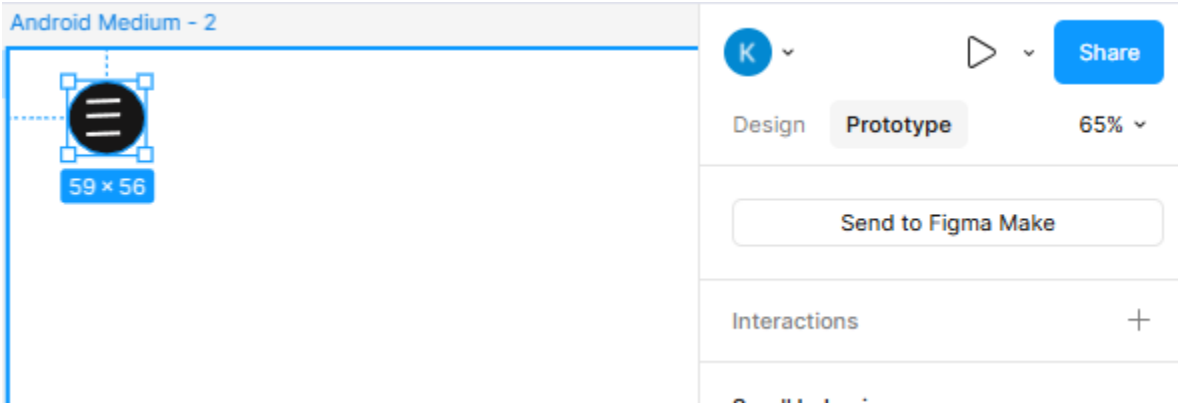


This will be the home page

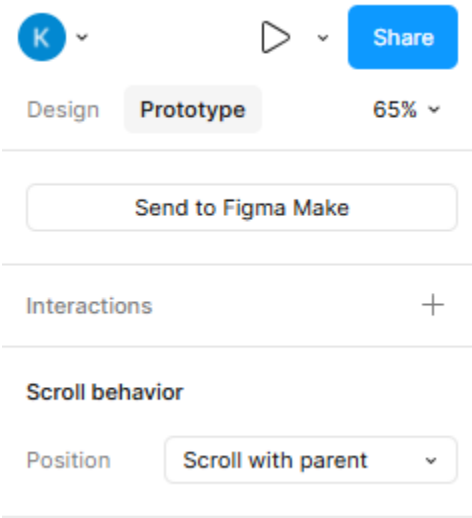
Give any design on that page

Give small eclipse symbol on this page to navigate

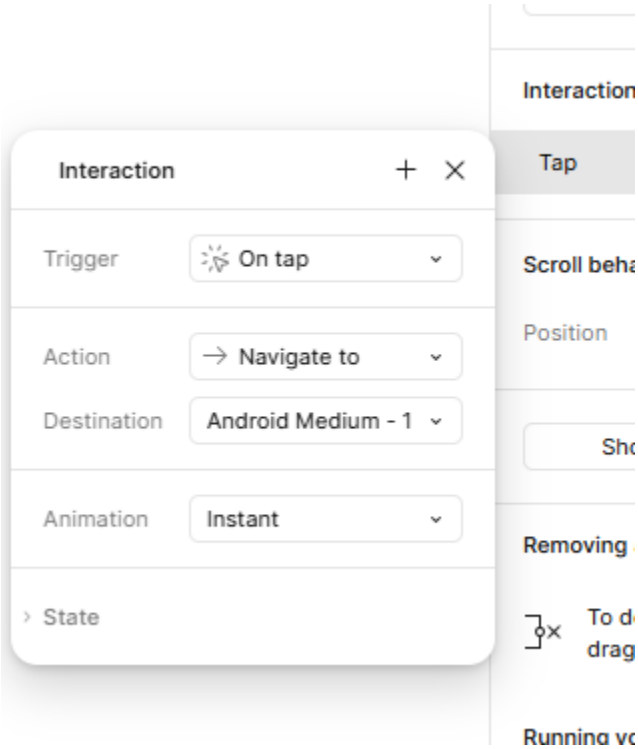
Now in second page click on that top bar eclipse and go to prototype >>Interaction and give below navigation

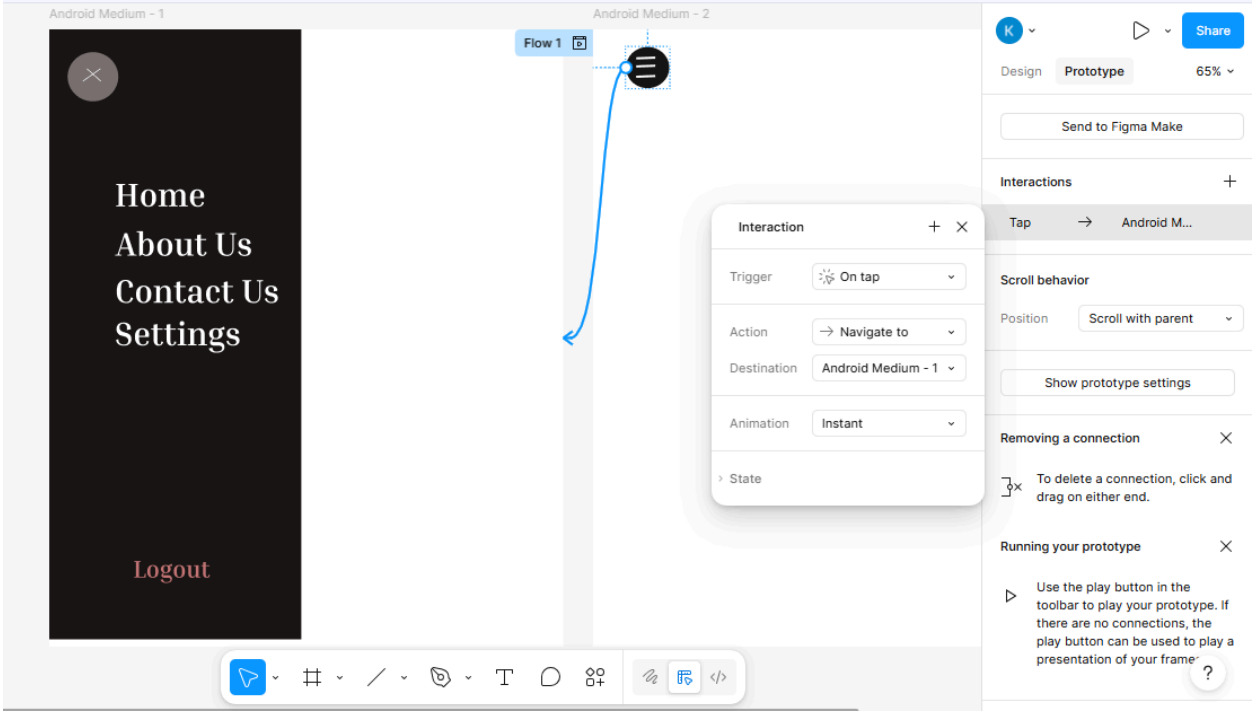


Click on + besides interaction



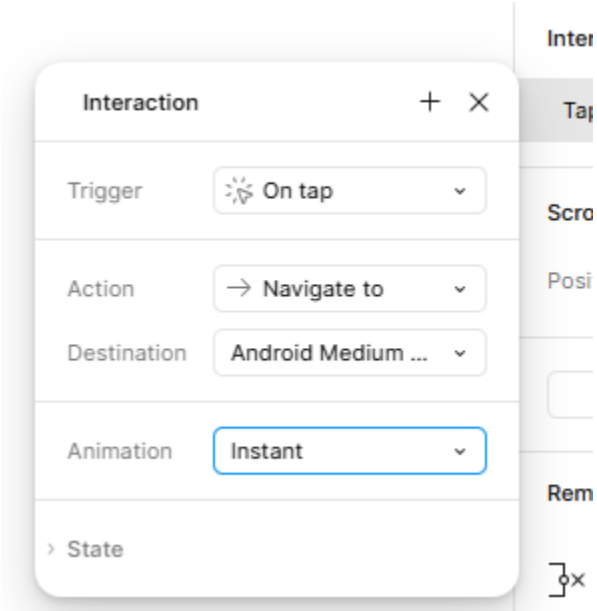
NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26

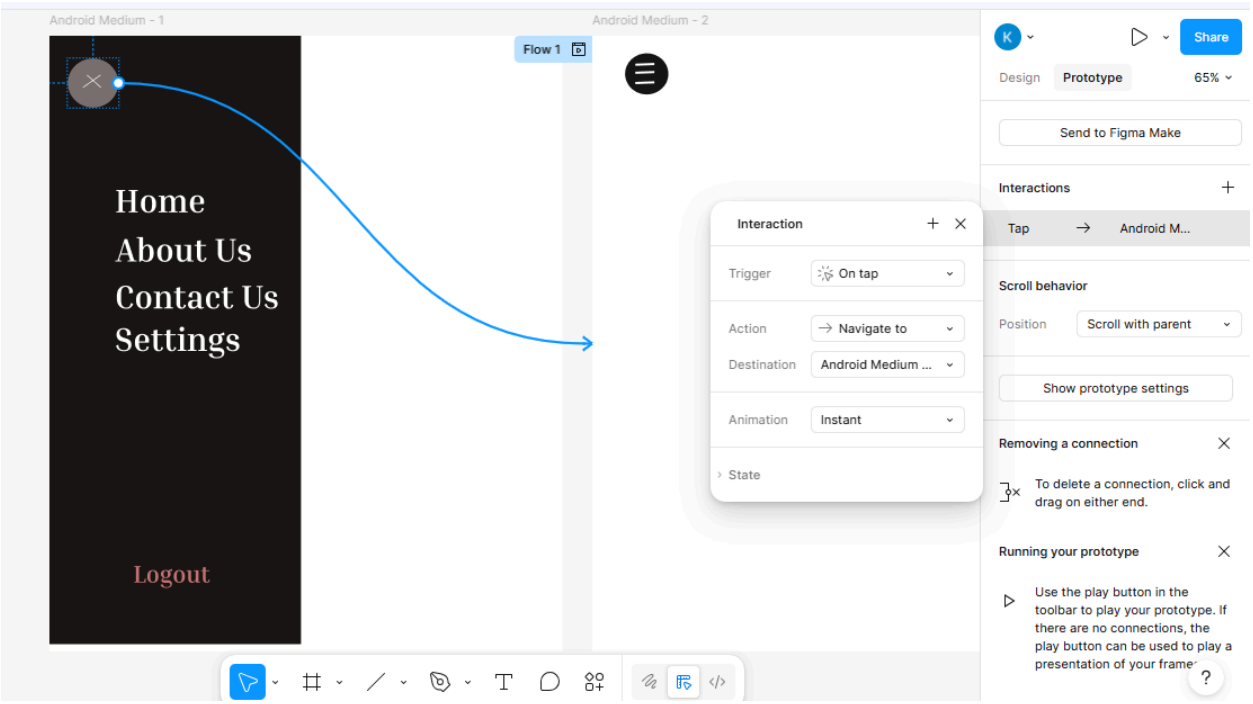




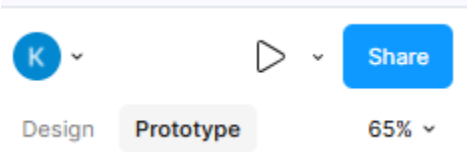
Now on first page go to top menu eclipse and give navigation steps

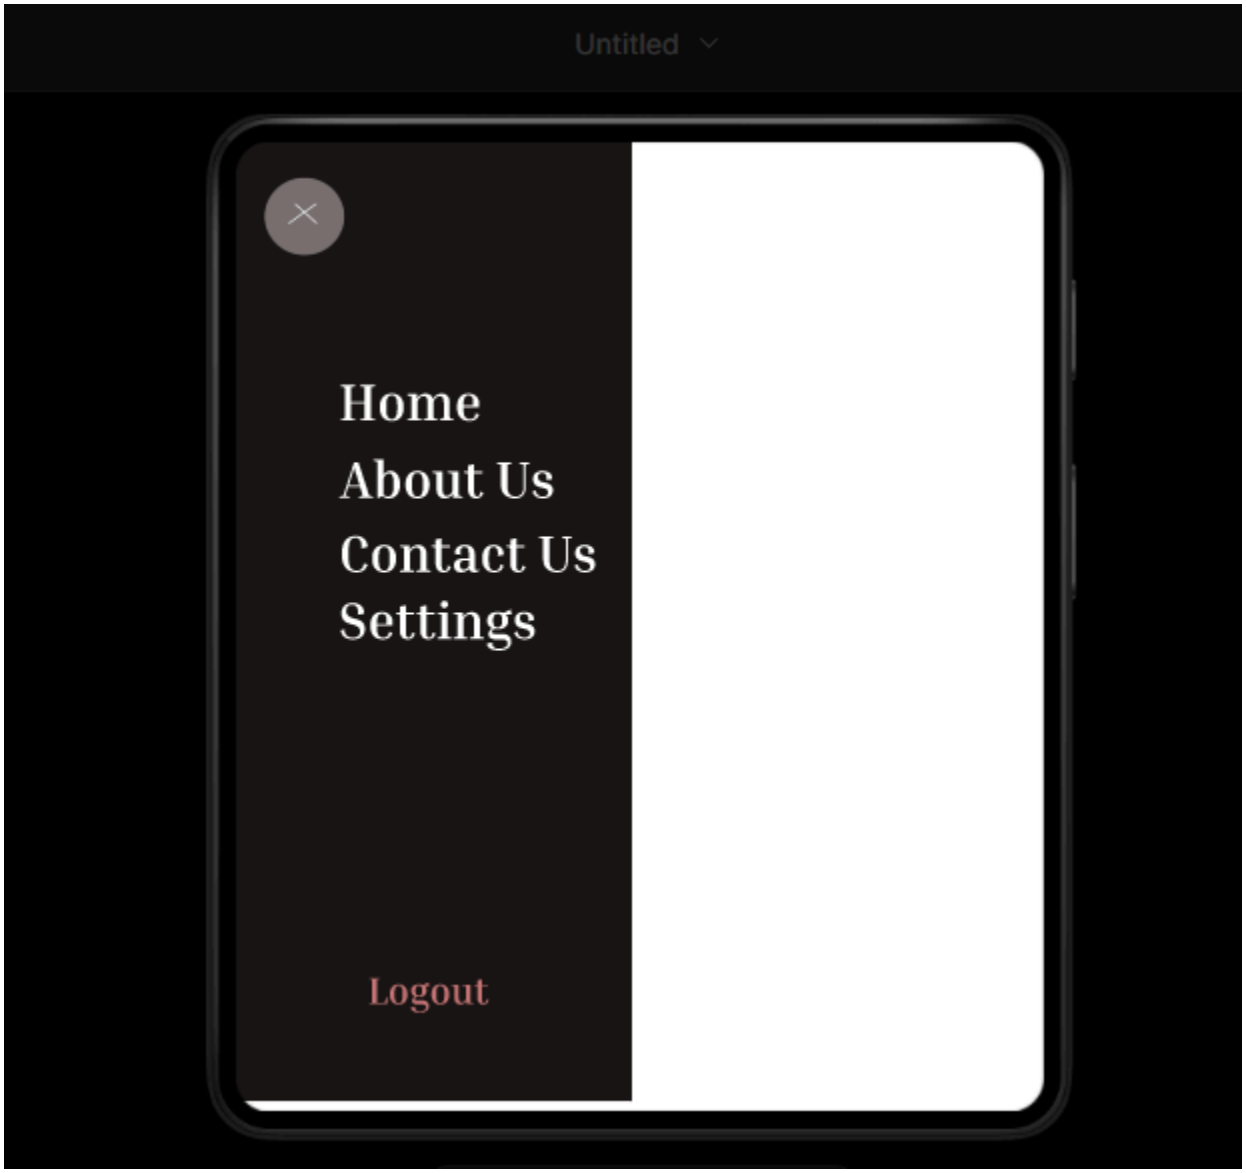
Click on eclipse >>prototype >> interactions >>..





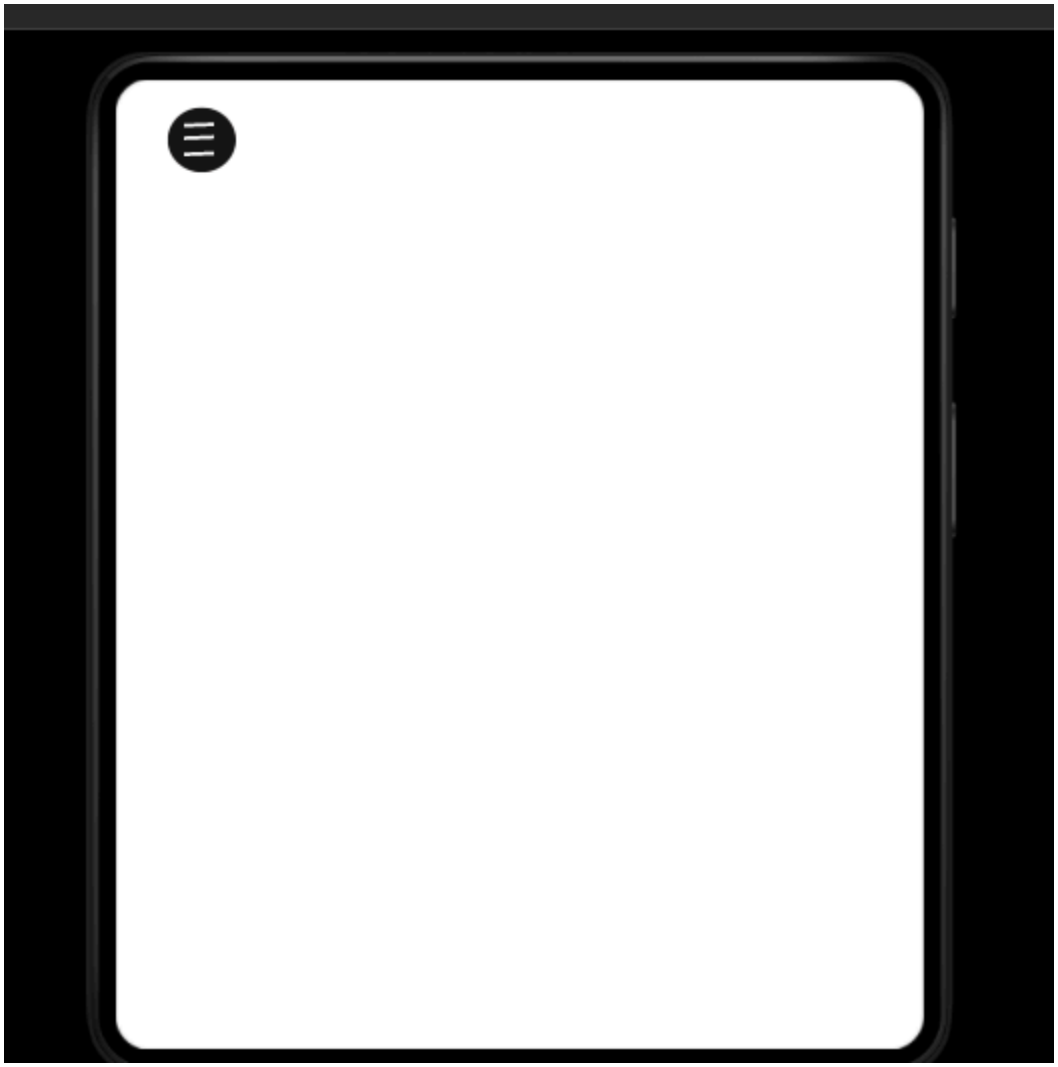
Now play this





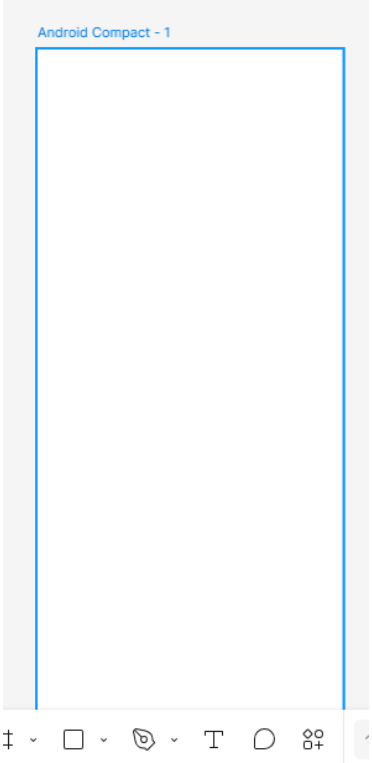
Click on cross it will navigate to first page

NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26

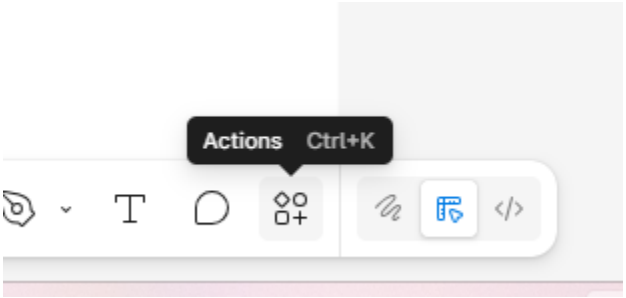


Bottom navigation:

Take frame >> Android Compact

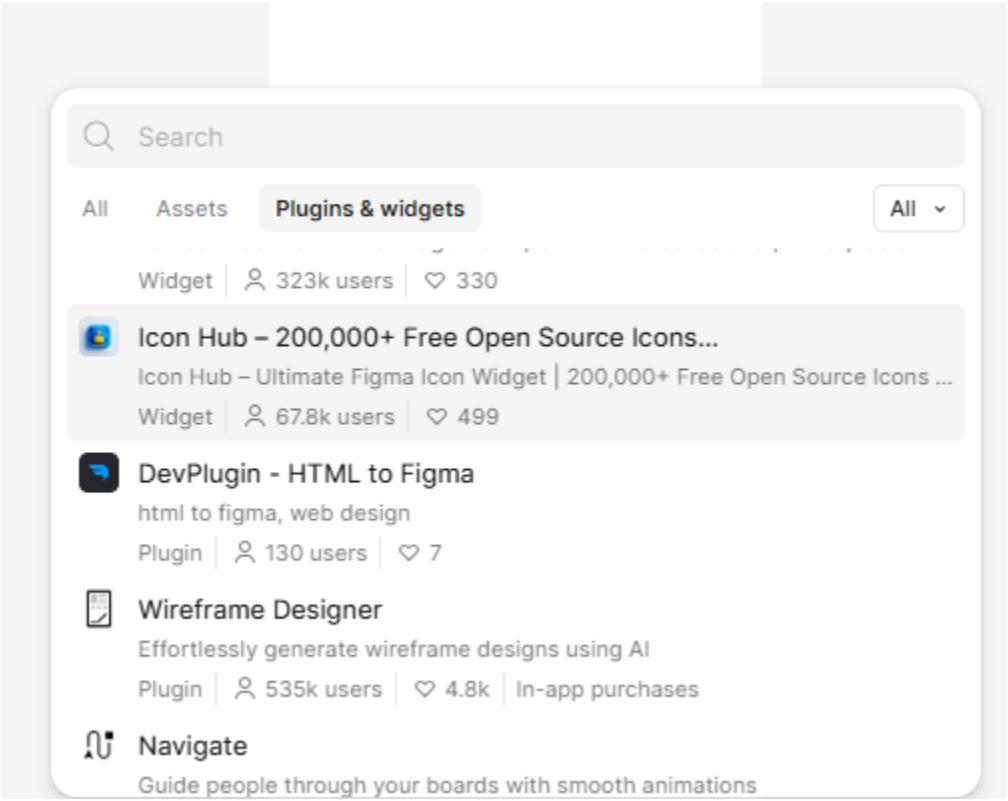


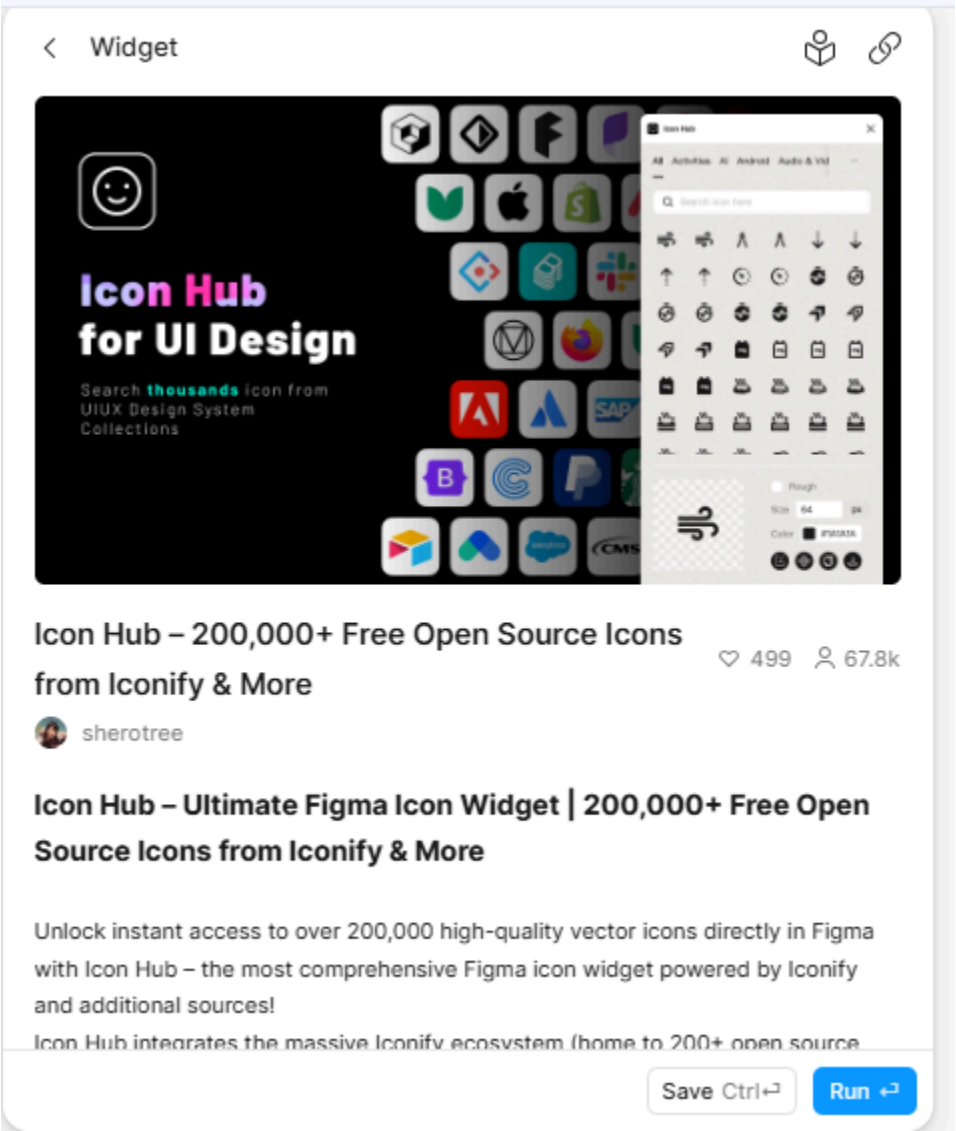
Below frame click on actions



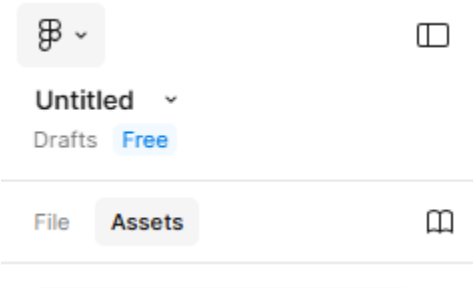
Click on this icon hub

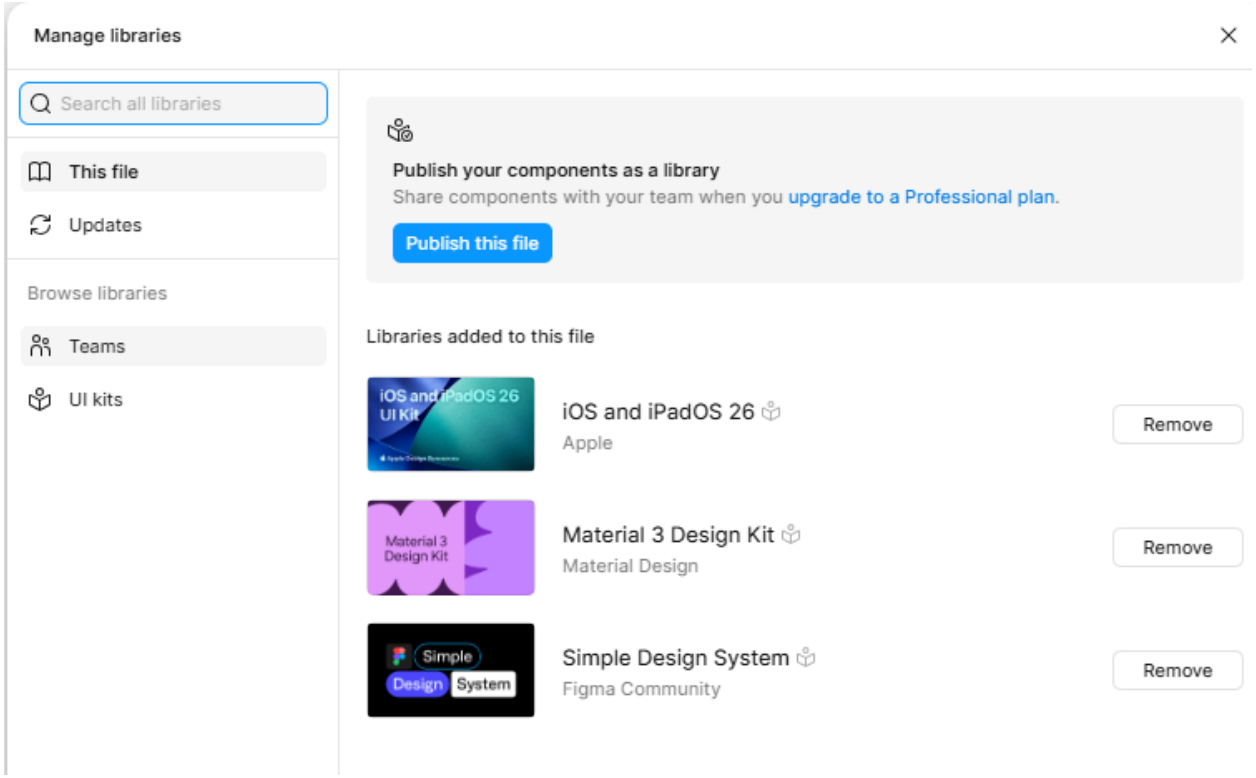
NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26

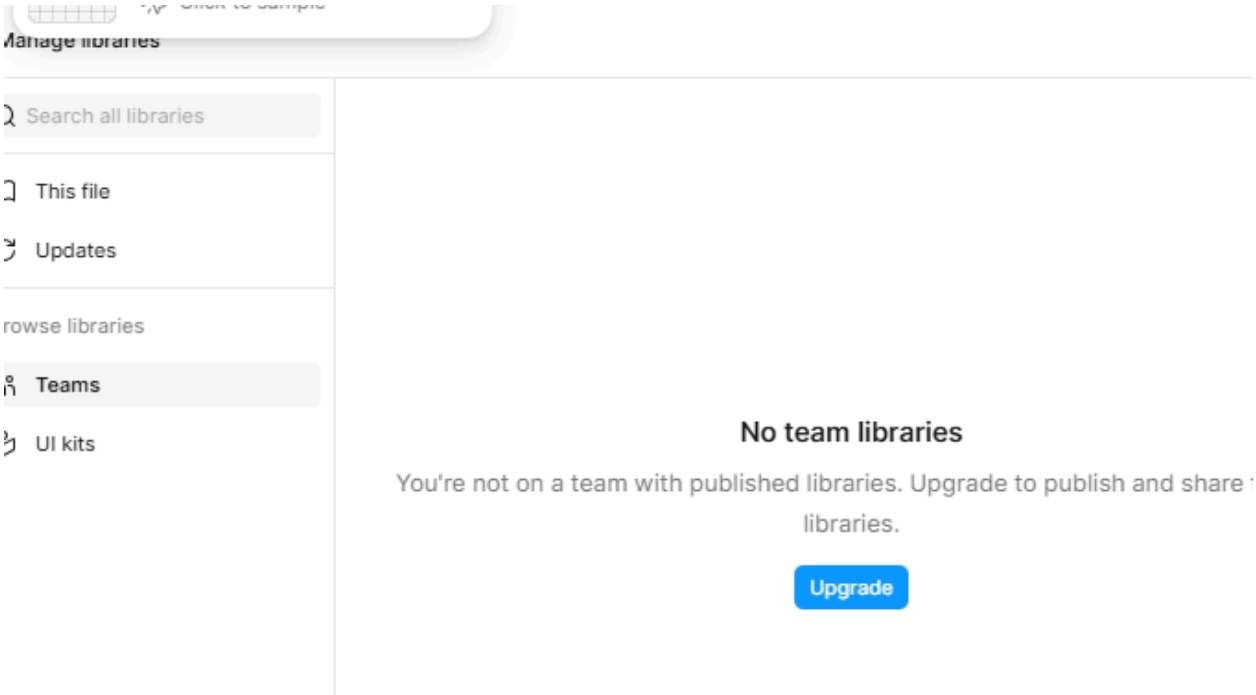




If the above does not work at left sidebar where there is files and assets beside there is book icon click on it go to teams and upgrade if asked

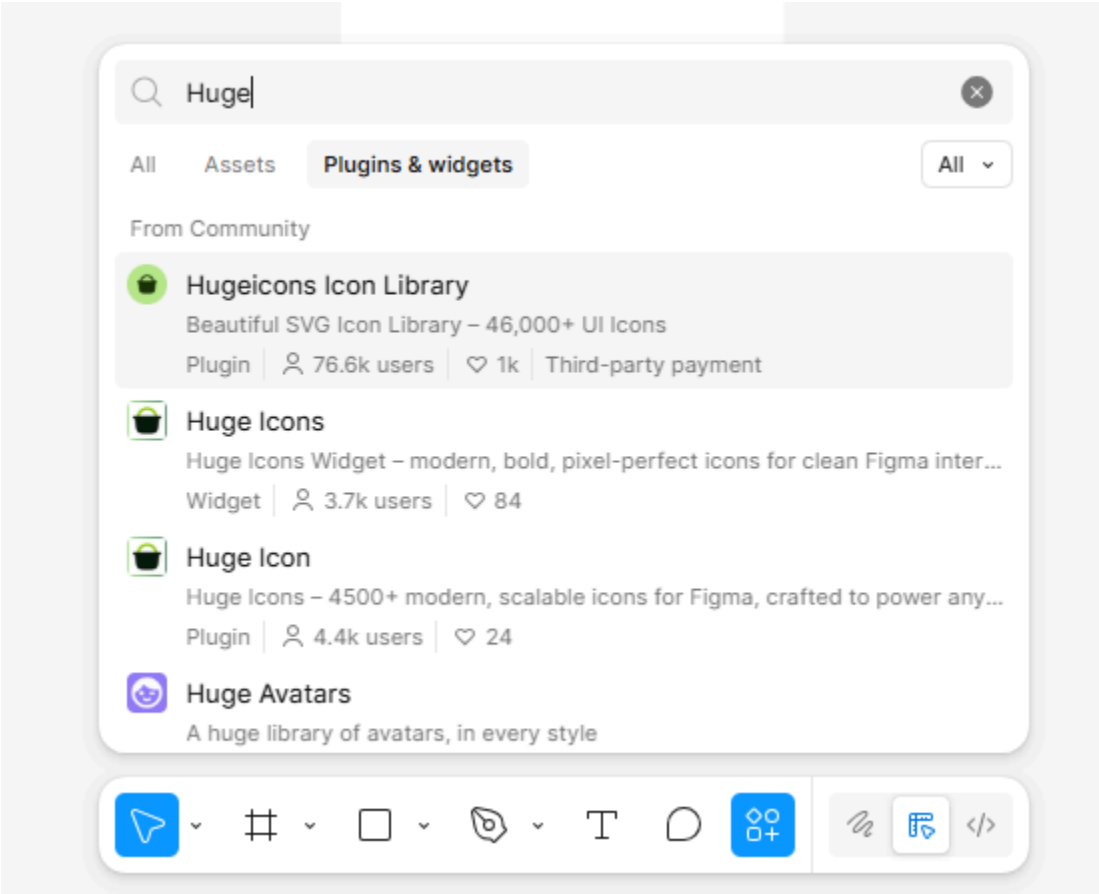




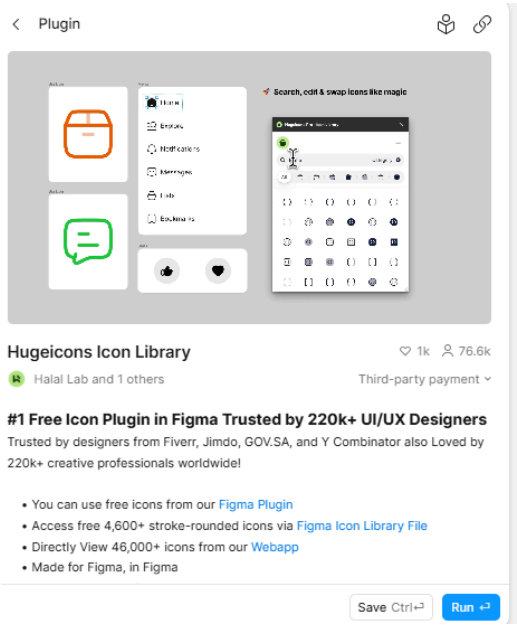


Then go to Actions which is at bottom then go to plugins & widgets and search for Huge icons library click on it

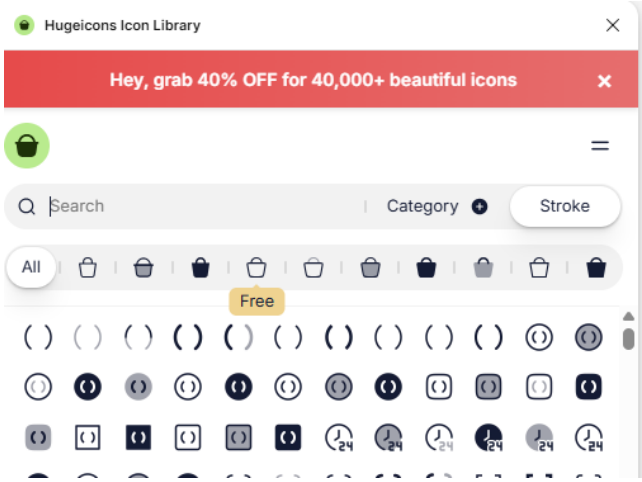
NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26

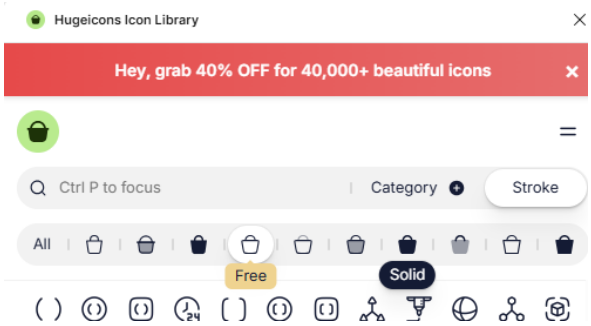


Click on and then click on run

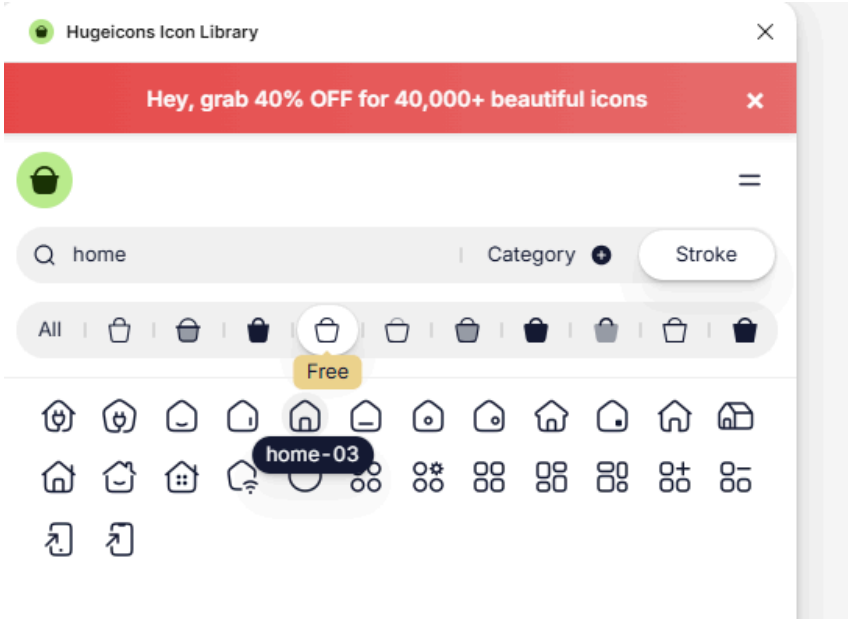


Click on this free(click on that icon which is above free word)

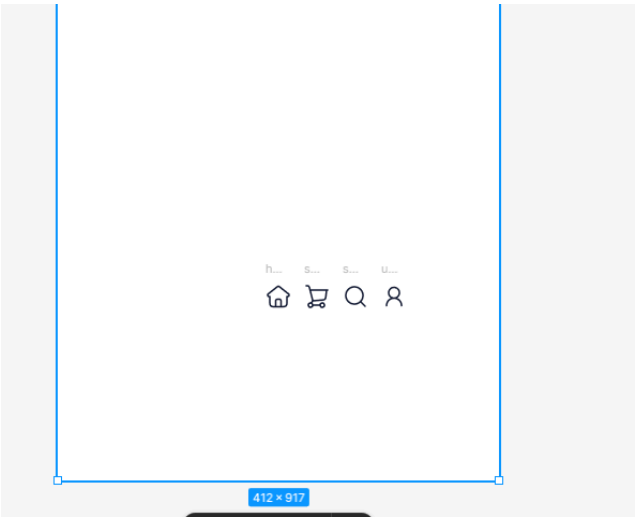




Search for icons and keep adding



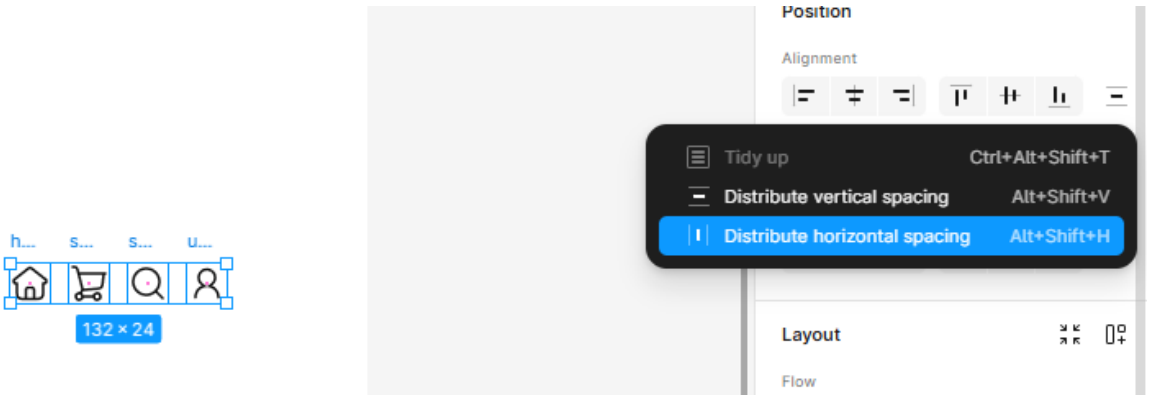
All icons are added



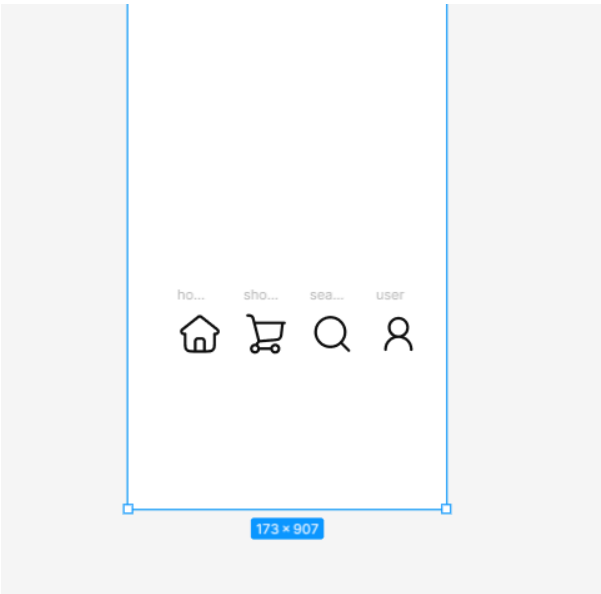
To arrange all elements in 1 line click on shift and then tap on all elements

Then change the color go to selection color and give 101010 in place of black color and click enter

Keep the icons selected then go to position at right bar and click on that icons >> distribute horizontal spacing

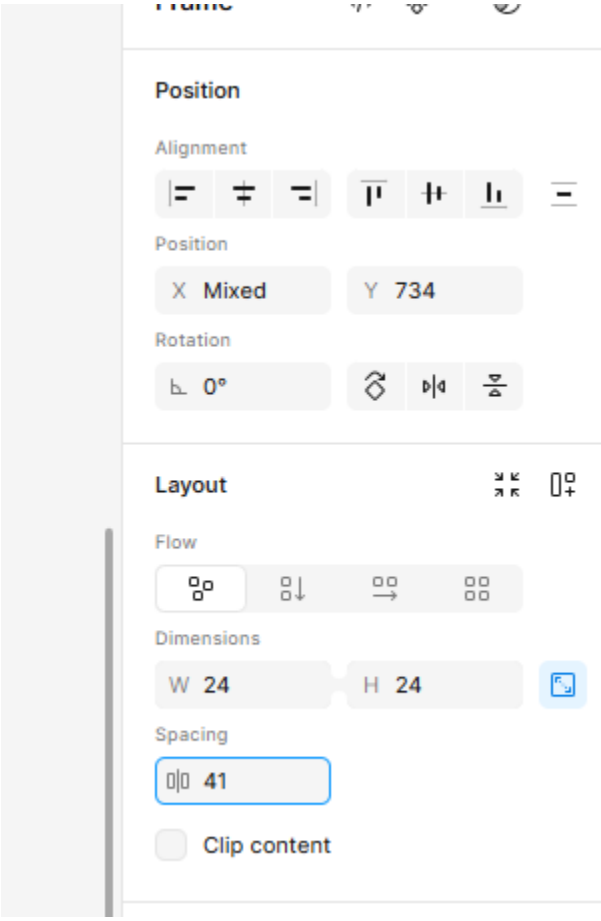


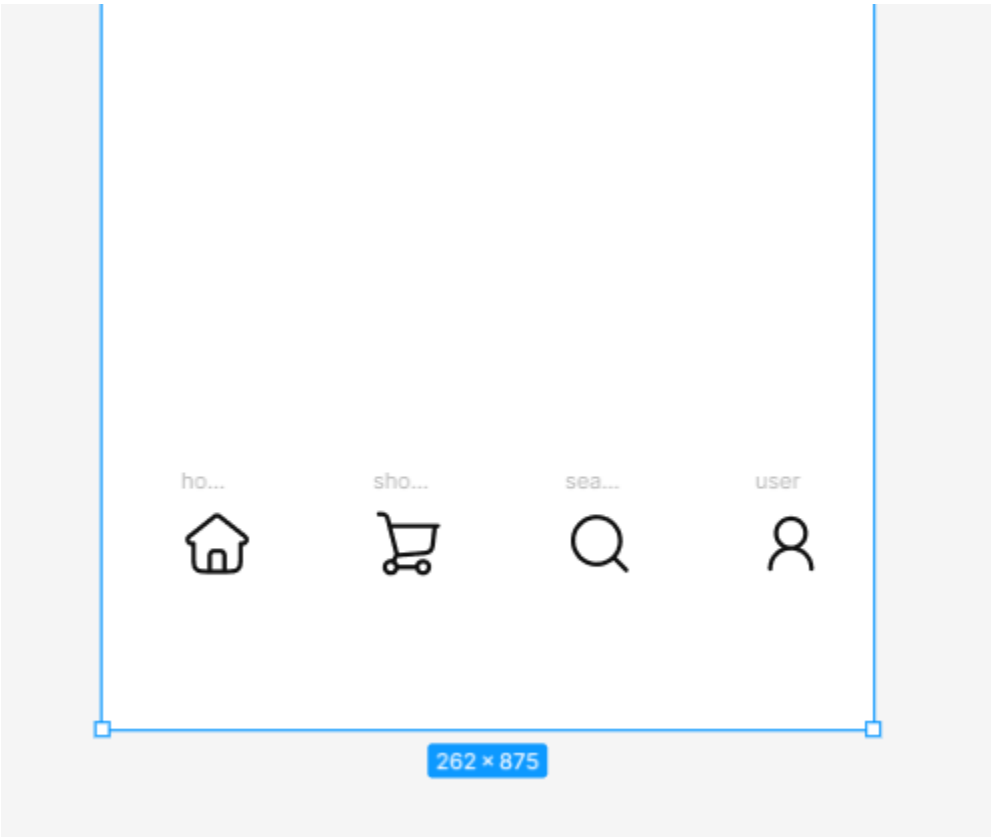
NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26



Increase spacing between 2 elements press shift and then select all elements at right side bar in layout give spacing as 41

NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26

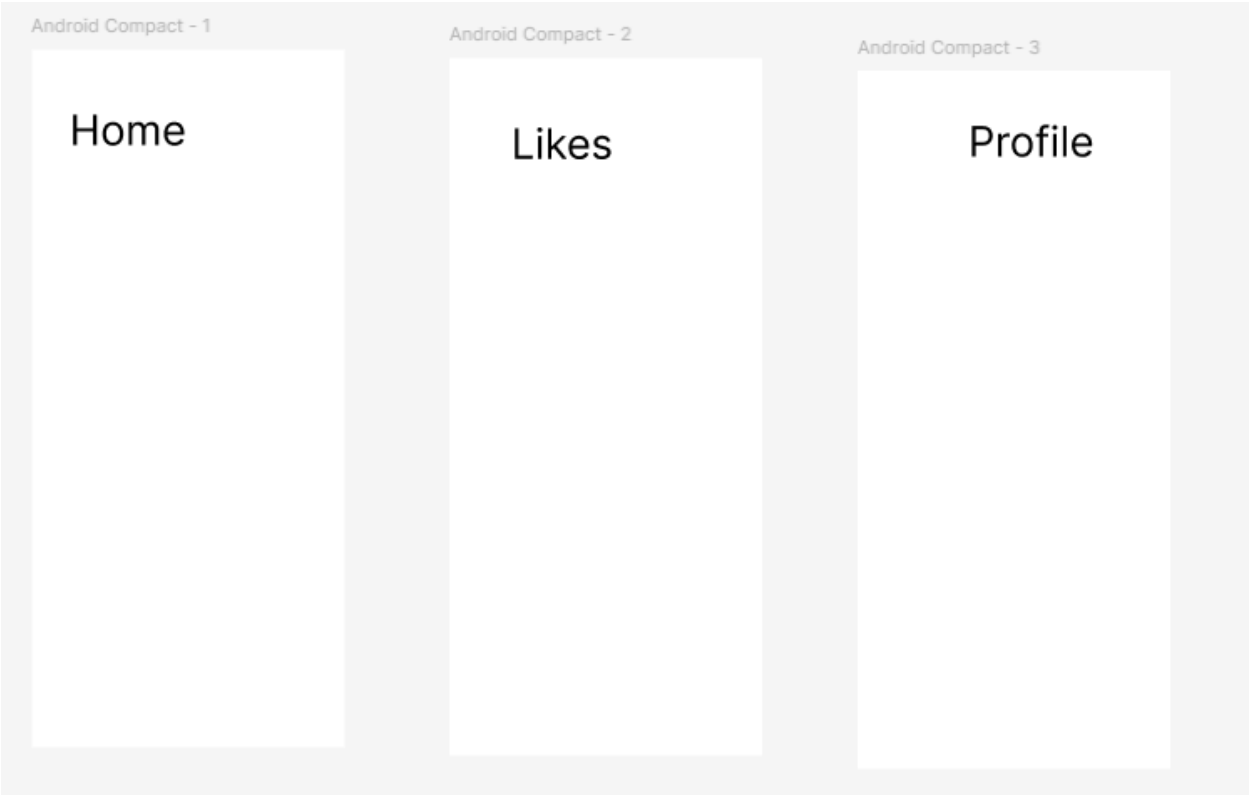




All above about bottom navigation bar is not working do the below steps

Take 3 android medium

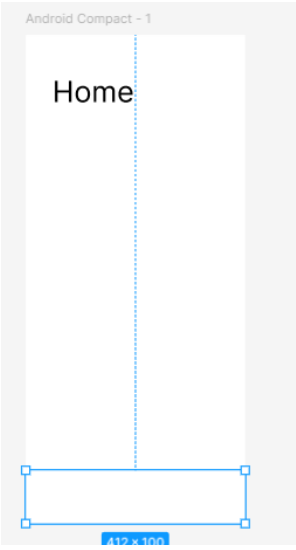
NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26



Create a frame in all 3 pages and give icons (bottom menu)

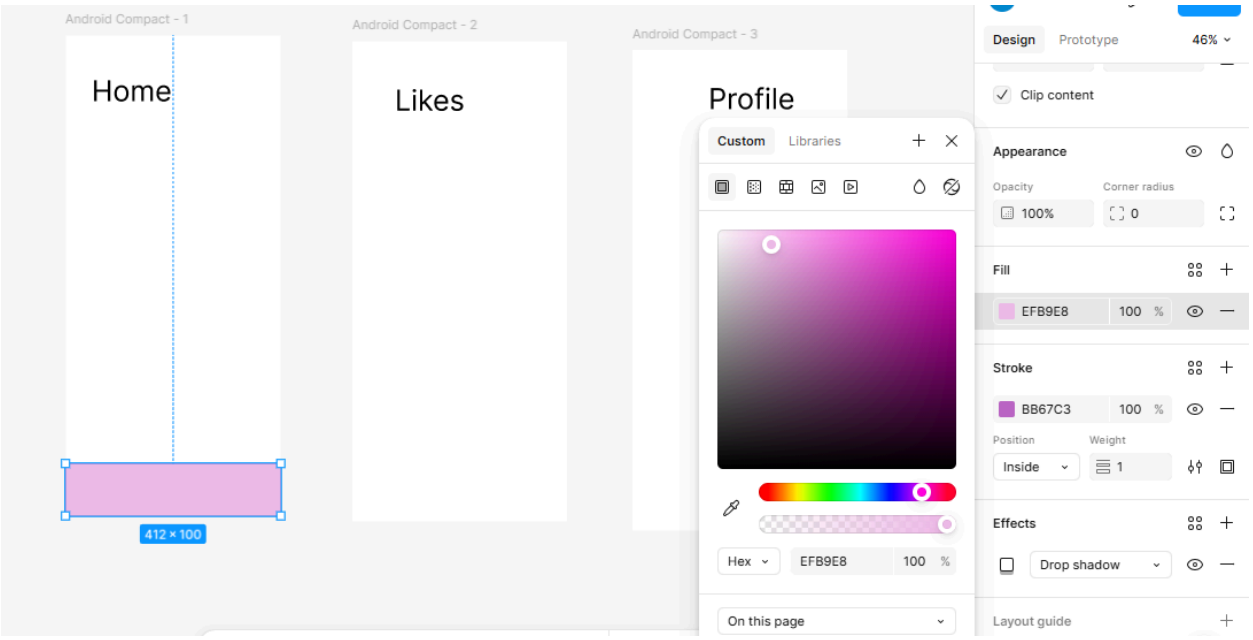
Android medium 1

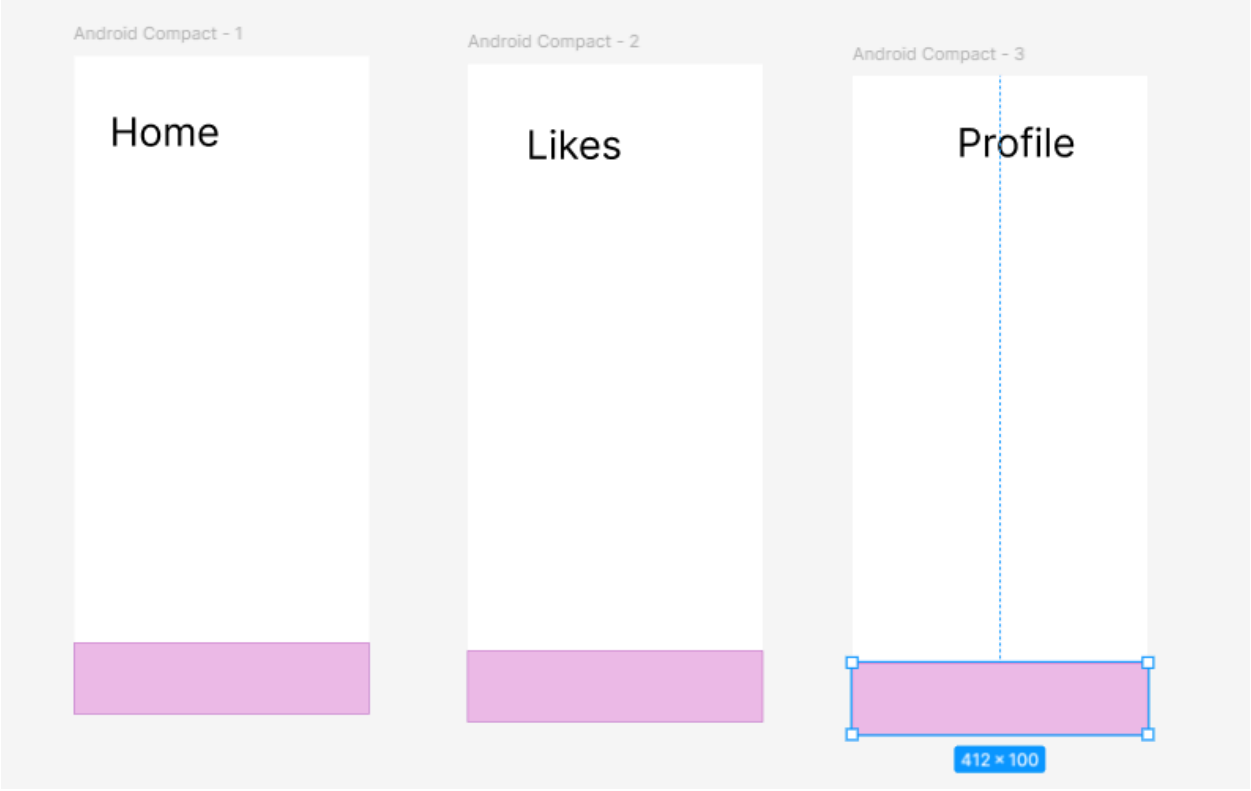
Take a frame and give color to it



NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26

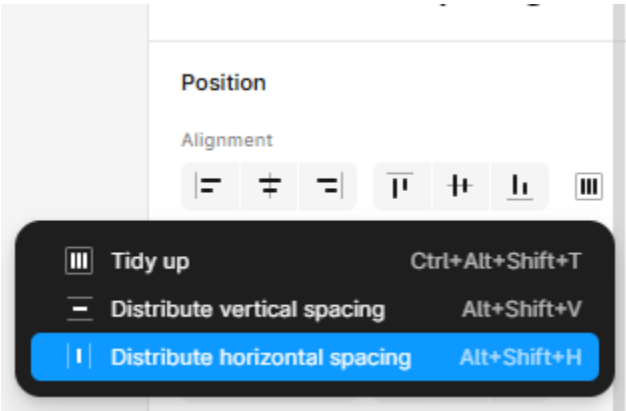
Give color go to fill



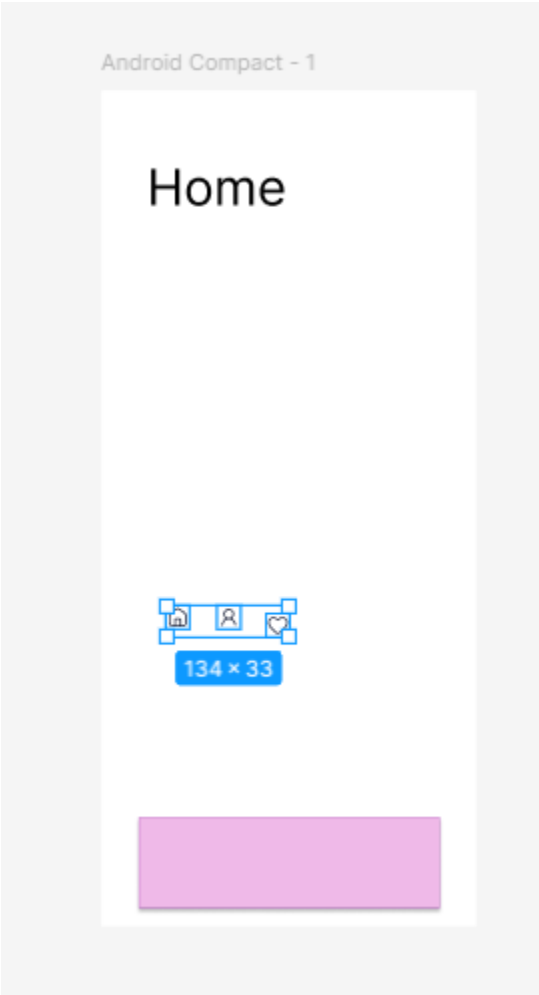


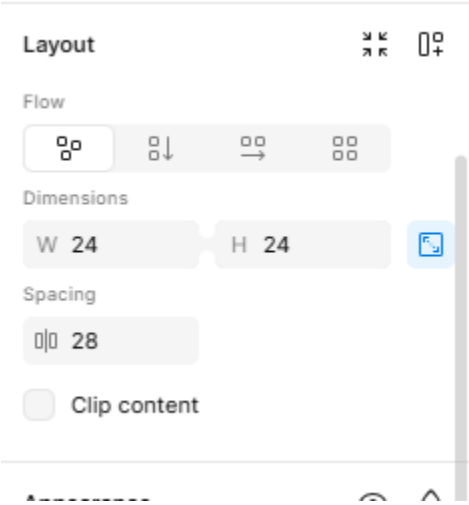
Now place icons below the android medium there is actions from there go to plugins and widgets and then select icons

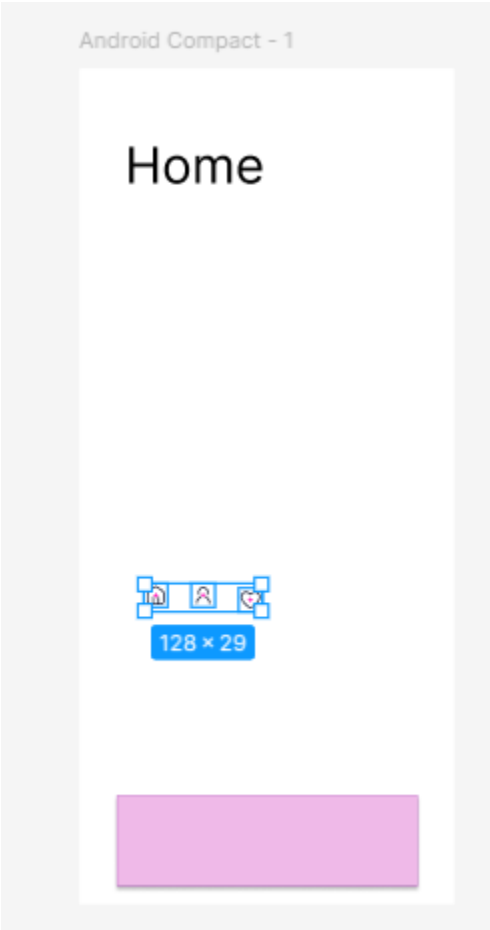
Keep the icons selected then go to position at right bar and click on that icons >> distribute horizontal spacing and also give spacing



NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26







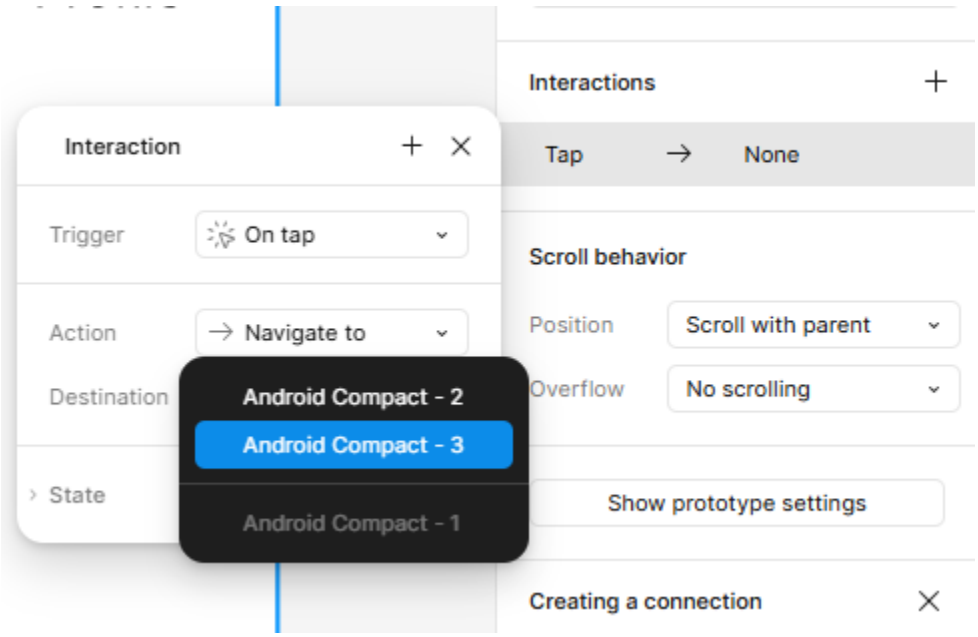
Select all shift + click on all element and drag and drop then in the below frame do like this to all pages

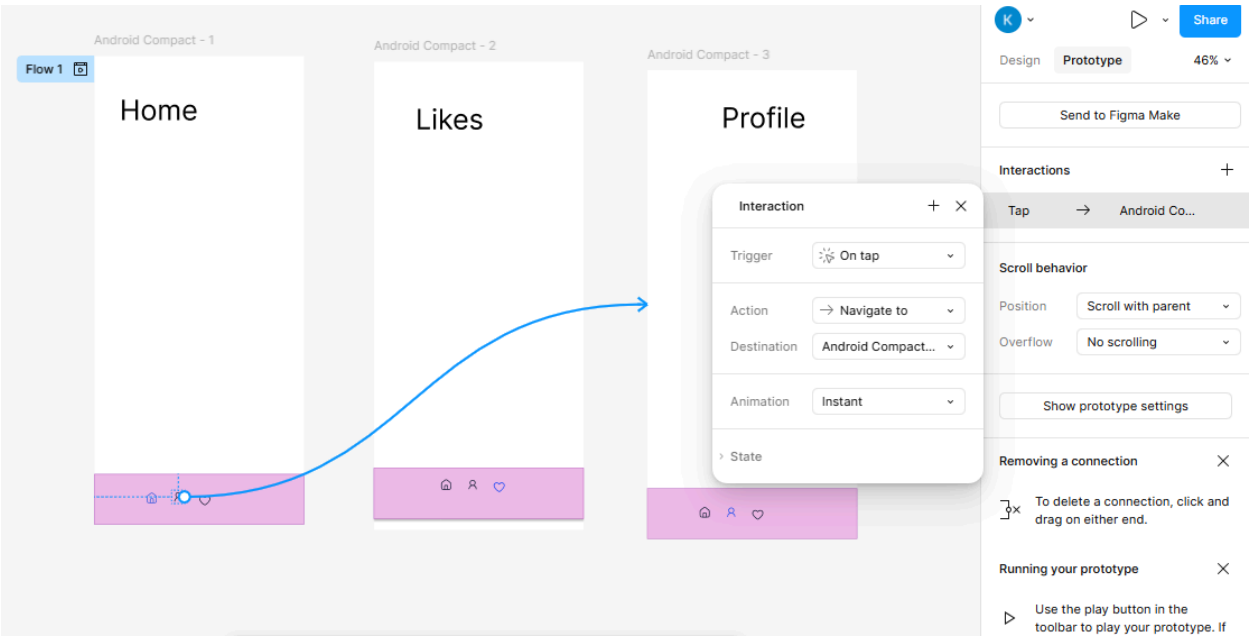
Now on each page click on the single icons and change color from the selection colors which is at right sidebar

Now give the interaction to the icons

On android medium 1 click on profile icon go to prototype >> interactions + >>

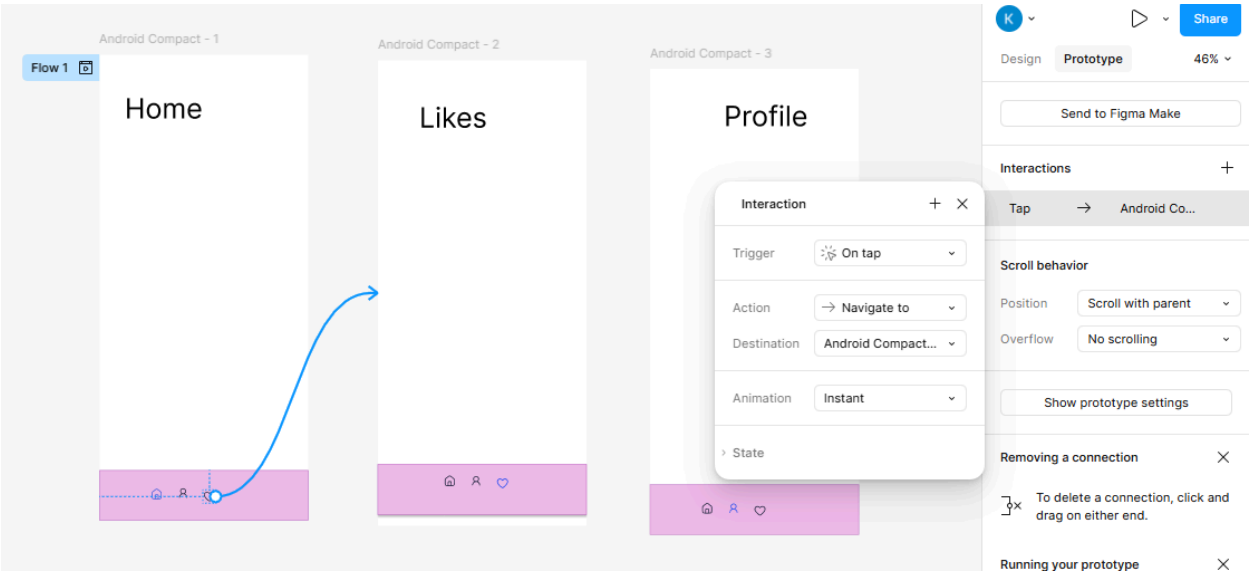
NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26

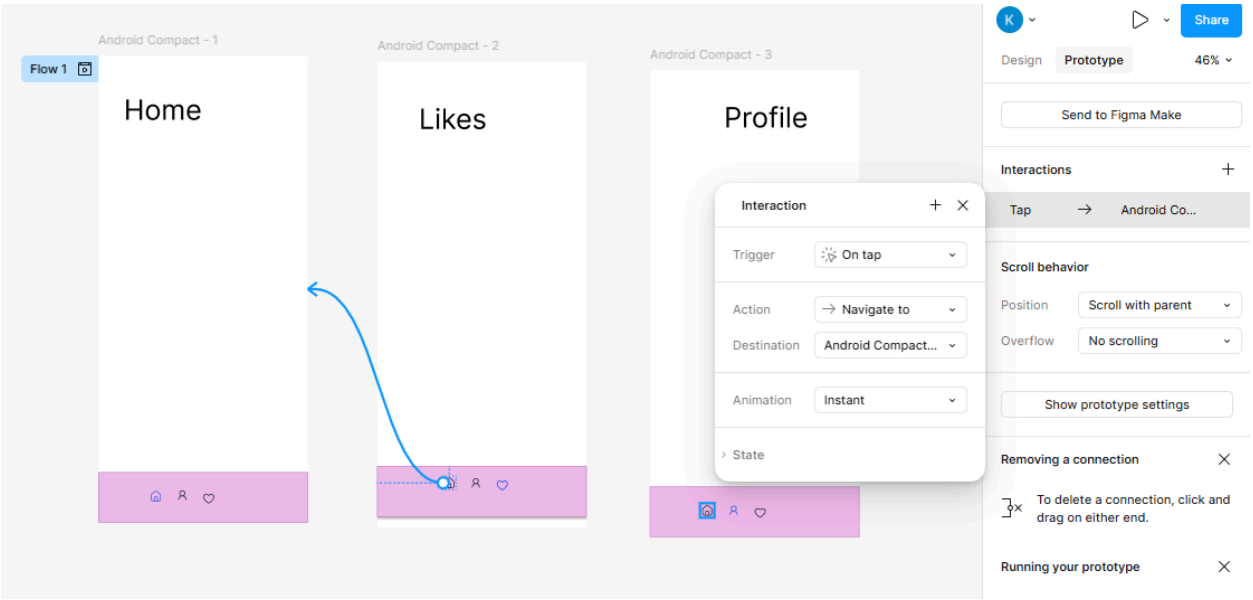




Now do this to all

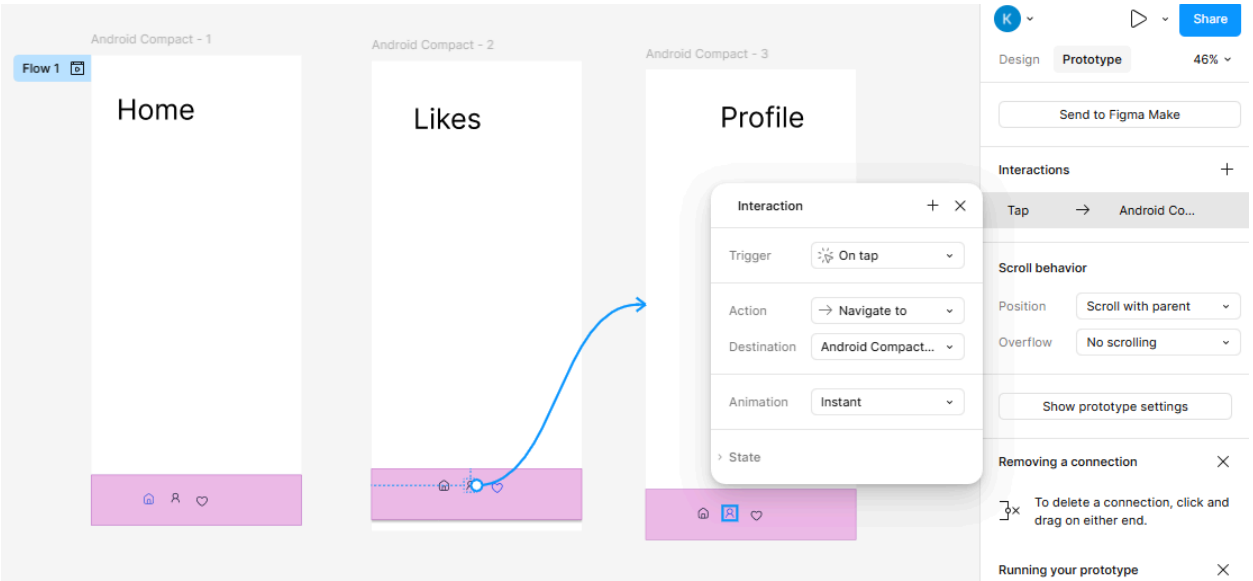
NAME : KAVYA JADHAV CLASS :
TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26

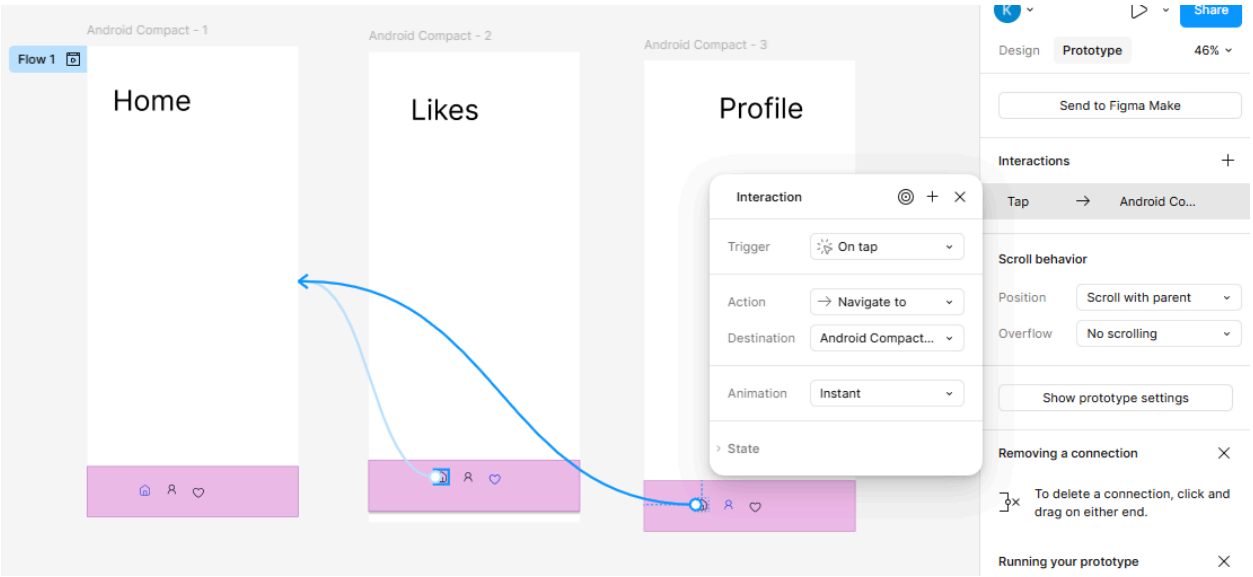




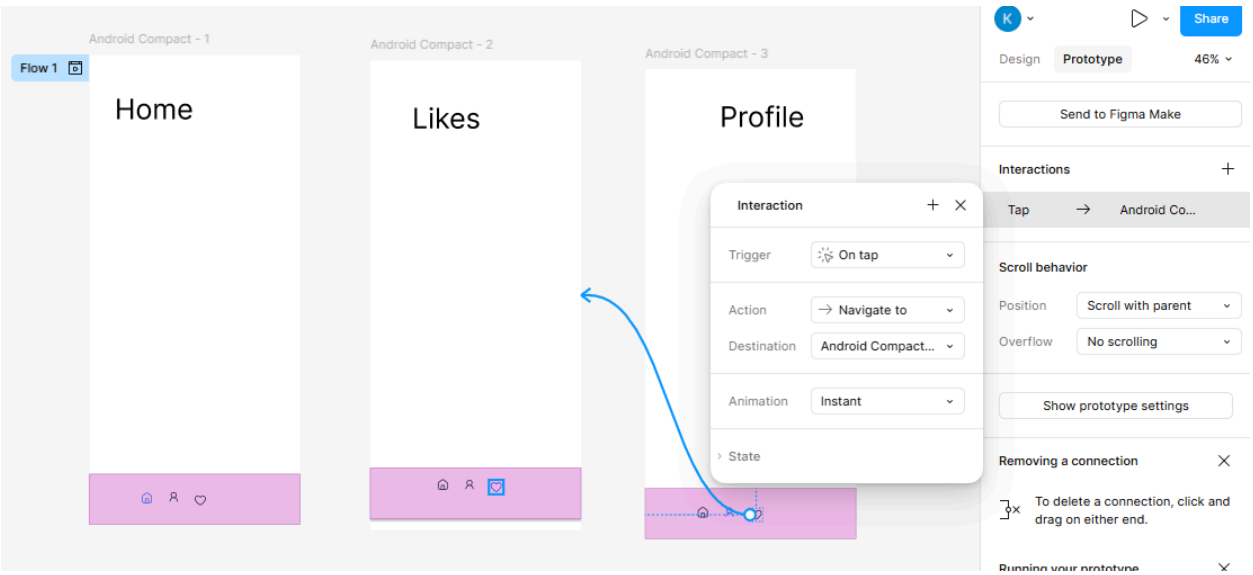
NAME : KAVYA JADHAV CLASS : TY.BSC-IT

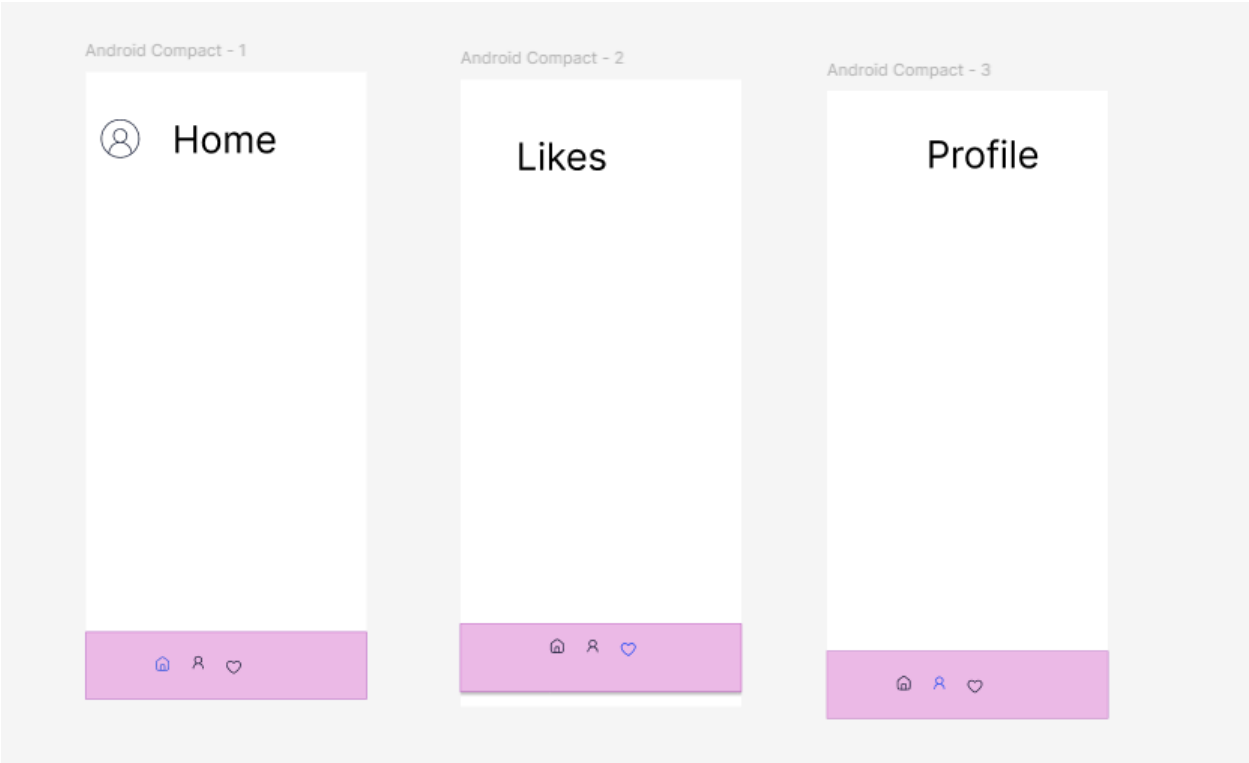
SUBJECT : UI/UX DATE : 2.2.26





NAME : KAVYA JADHAV CLASS : TY.BSC-IT
SUBJECT : UI/UX DATE : 2.2.26





after doing all above navigation effect

Run this :

The below is the Home page in which the home icon is of blue color

Then from this page when I click on heart icon it will navigate to that page and then on that page the navigation menu heart icon will be of blue color

Now you can do beautification
